AGRICULTURE

Sen. Steve Halloran, chairperson of the Agriculture Committee

he Agriculture Committee advanced bills this session authorizing the cultivation and processing of hemp, expanding legal protections for agricultural producers and allowing for cottage food sales from a private home.

Nebraskans may grow, process and handle hemp and hemp products in the state under LB657, introduced by Omaha Sen. Justin Wayne and passed on a vote of 43-4.

Under the 2018 Farm Bill, Congress distinguished hemp from marijuana and removed hemp from regulation under the federal Controlled Substances Act. In addition, the farm bill provided for the cultivation and commercial use of hemp under regulation of either the U.S. Department of Agriculture or the

Sen. Justin Wayne

states. States that wish to regulate hemp production first must submit a plan to the USDA for approval.

LB657 requires the state Department of Agriculture to establish, operate and administer a program to license and regulate those who cultivate, process, handle or broker hemp, defined as cannabis with no more than 0.3 percent delta-9 tetrahydrocannabinol (THC), the plant's main psychoactive compound.

The bill also requires the department's director to submit a state regulatory plan to the U.S. Secretary of Agriculture no later than Dec. 31, 2019.

Prior to the state plan's approval, a person with a valid licensing agreement with the state Department of Agriculture may cultivate, handle or process hemp as part of a pilot program authorized by federal law in 2014.

The bill requires any person other than a hemp cultivator or processor-handler who is transporting hemp to carry a bill of lading indicating the hemp's owner, its point of origin and its destination, as well as documentation affirming that it was produced in compliance with federal law.

Another bill advanced by the committee expands legal protections for agricultural producers under Nebraska's 1982 Right to Farm Act.

Under the act, a farm or public grain warehouse—a grain elevator or receptacle in which grain is held for longer than 10 days—cannot be found to be a public or private nuisance if it existed before a change in the land use or occupancy of land in its locality and would not have been considered a nuisance before the change.

Under LB227, introduced by Sen. Dan Hughes of Venango and passed 46-2, no suit for public or private nuisance may be maintained against a farm or public grain warehouse more than two years after the condition that is the subject matter of the suit reaches a level of offense sufficient to sustain a nuisance claim.

Sen. Dan Hughes

The limitation does not apply to any action brought to determine compliance with or to enforce a previous court order related to the same nuisance claim or to any claims for additional damages or relief available when an operation fails to remediate a nuisance pursuant to the court order.

Nebraskans may sell so-called cottage foods directly from their homes and at certain events under another bill advanced by the committee.

Under the Nebraska Pure Food Act, a person or business preparing, storing or selling food for public consumption is required to be licensed and inspected and to comply with certain food safety regulations.

State law previously had exempted private homes only when preparing nonhazardous food items such as many types of baked goods and uncut fruits and vegetables directly sold to consumers at a farmers market if the consumer is informed by a sign at the sale location that the food was prepared in a kitchen that was not subject to regulation and inspection.

LB304, introduced by Bellevue Sen. Sue Crawford and passed on a 40-0 vote, expands commercial avenues available to cottage food businesses by allowing direct consumer sales of nonhazardous food items at a fair, festival, craft show or other public event or for pickup or delivery at a seller's private home.

Sen. Sue Crawford

The bill requires producers other than those selling directly to consumers at a farmers' market to complete a nationally accredited food safety and handling course or a certified food safety and handling training course offered at a culinary school or as required by a county, city or village to obtain a food handler permit.

A producer also is required to follow food safety and handling guidelines for sale at public events, and a producer selling from a private home is required to register with the department before conducting any sales.

A bill advanced by the committee and passed on a vote of 43-0 creates a 17-member task force that will develop a plan to improve soil health in Nebraska.

Introduced by Creighton Sen. Tim Gragert, LB243 creates a healthy soils task force under the state Department of Agriculture.

The task force will develop a healthy soils initiative and a plan to carry it out "using standards for organic matter, biological activity, biological diversity and

Sen. Tim Gragert

soil structure as measures to assess improved soil health."

Members will include the director of the department or his or her designee and others appointed by the governor, including representatives of natural resources districts, production agriculture and agribusiness as well as academic experts and representatives from environmental organizations.

When developing the plan, the task force will examine how to provide farmers and ranchers with research, education, technical assistance and demonstration projects; financial incentives to improve soil health; and information on the contribution of livestock to soil health.

The task force is required to submit its plan, findings and recommendations to the Legislature and the governor by Jan. 1, 2021, when it terminates.

The committee did not advance LB45, introduced by Omaha Sen. Ernie Chambers, which would repeal the Black-Tailed Prairie Dog Management Act.

The 2012 act authorizes county boards to adopt and carry out coordinated management programs to control black-tailed prairie dog colonies on property within the county.

Also remaining in committee is LB382, introduced by Lincoln Sen. Suzanne Geist, which would bar municipalities from enacting ordinances to regulate pet stores and require sellers to make pet disclosure statements available for customer review.

Sen. Suzanne Geist

<u>APPROPRIATIONS</u>

Sen. John Stinner, chairperson of the Appropriations Committee

awmakers approved the state's \$9.3 billion, two-year budget package this session. Among the measures passed was LB294, the mainline budget bill, which funds state government for the next two fiscal years. The bill was introduced by Speaker Jim Scheer of Norfolk at the request of the governor and includes:

- LB174, sponsored by Lincoln Sen. Kate Bolz, which increases general funds to the state Office of Violence Prevention by \$300,000 per year in the next two fiscal years;
- LB181, sponsored by Bolz, which uses \$87,500 from the Nursing

Sen. Jim Scheer

Sen. Kate Bolz

Facility Penalty Cash Fund to pay for a study to examine demographic trends, project current and future service needs and provide recommendations for continued statewide access to long-term care

- services, including nursing facility care, for Medicaid recipients;
- LB327, also sponsored by Bolz, which increases behavioral health provider rates by \$1.5 million in FY2019-20 and \$3.6 million in FY2020-21; and
- LB403, sponsored by Gering Sen. John Stinner, which changes the Medicaid rate calculation for nursing facilities.

LB294 passed on a vote of 35-12.

Provisions of LB202, sponsored by Lincoln Sen. Anna

Wishart, were amended into LB293, a portion of the budget package that adjusts current year appropriations.

The provisions appropriate \$2.7 million in the current fiscal year to the state Department of Health and Human Services as the last of three payments to developmental disability providers who

did not receive full compensation for services rendered due to a DHHS error.

Senators approved LB293 on a vote of 45-2.

Provisions of LB446, sponsored by Omaha Sen. Mike

McDonnell, were amended into LB298, which repeals and creates funds and makes certain fund transfers.

The provisions authorize the use of funds from the County Justice Reinvestment Grant Program to supplement existing programs, services and approaches to reduce jail populations

and costs. Any aid not distributed to counties through the existing formula will be distributed on a competitive basis to counties demonstrating additional need in identified funding areas.

LB298 passed on a 46-2 vote.

Additional budget measures approved were:

- LB295, which provides for the \$12,000 annual salaries of Nebraska's 49 state senators, passed 43-4;
- LB296, which funds salaries and benefits for judges and constitutional officers, passed 47-0;
- LB297, which appropriates funds for reaffirmed and new capital construction projects, passed 38-9;
- LB299, which makes a \$54.7 million transfer to cover costs for two additional high security housing units for the state Department of Correctional Services, passed 43-4; and
- LB464, which provides for payment of claims against the state, passed 46-1.

The governor offered no line-item vetoes of the budget bills this session.

Other measures

Lawmakers passed a bill this session intended to increase assistance available to startup companies through the state Department of Economic Development.

LB334, sponsored by Stinner, eliminates the Angel Investment Tax Credit, which was scheduled to terminate in 2022.

In FY2020-21, the \$4 million annual cost savings will be directed to the state Military Department for the governor's emergency program to assist those impacted by recent flooding. Beginning in FY2021-22, funds will be directed to DED to fund programs under the Business Innovation Act.

The bill requires DED and the Appropriations Committee to assess and evaluate the financial status and economic impact of programs funded under the Business Innovation Act.

LB334 also includes provisions of LB452, sponsored by Elmwood Sen. Robert Clements, which transfer Cass County from its current planning and development region to Region 8. The provisions also place a moratorium on future boundary changes until July 1, 2020.

Lawmakers passed the bill 47-0.

Sen. Robert Clements

Senators also established a trust fund for brain injury research and advocacy in Nebraska.

LB481, as originally introduced by Bolz, would have stated intent regarding how the state Department of Health and Human Services administers the federal Title

X Program.

Those provisions were removed and replaced with LB642, introduced by McDonnell. The bill creates the Brain Injury Trust Fund, which consists of general fund appropriations and transfers authorized by the Legislature, grants and any contributions designated for the purpose of the fund.

The bill transfers \$500,000 annually to the Brain Injury Trust Fund from the Nebraska Health Care Cash Fund, beginning in FY2020-21.

The Brain Injury Trust Fund will be administered through a contract with the University of Nebraska Medical Center for administration, accounting and budgeting purposes and used to pay contracts for assistance to individuals with a brain injury. No more than 10 percent of the fund may be used for administration.

LB481 also creates a 12-member Brain Injury Oversight Committee. The bill passed on a 41-1 vote.

A proposal that would increase funding for pancreatic cancer research remains in committee.

LB669, sponsored by Seward Sen. Mark Kolterman, would appropriate \$15 million from the Nebraska Health Care Cash Fund to the University of Nebraska Medical Center for the establishment of a pancreatic cancer research center. No funds would be distributed until the university has received \$15 million in matching private or other funds for the same purpose.

Sen. Mark Kolterman

BANKING, COMMERCE & INSURANCE

Sen. Matt Williams, chairperson of the Banking, Commerce and Insur-

nsurance coverage for children's hearing aids and behavioral health services were addressed this session, along with regulation of automatic teller machine fees and real estate licenses.

Insurance

Beginning Jan. 1, 2020, most insurance plans in Nebraska must cover hearing aids for children. LB15, introduced by Sen. Carol Blood of Bellevue, requires that

non-exempt plans cover evaluation, fitting, programming, repairs and auditory rehabilitation and training for Nebraskans younger than 19. Hearing aids must be purchased from a licensed audiologist with medical clearance from an otolaryngologist to be covered.

Sen. Carol Blood

Small business group health plans are exempt, as are companies for whom expenses associated with the bill would exceed 1 percent of yearly premiums collected. Covered expenses are capped at \$3,000 over four years. The bill passed 48-0.

Insurance companies can no longer deny coverage of behavioral health care solely because it is delivered in a school. Under LB619, introduced by Sen. Rick Kolowski of Omaha, insurers are not required to cover services that otherwise are excluded from a policy. The bill passed 49-0 and takes effect Jan. 1, 2020.

Sen. Rick Kolowski

Legislators also approved a bill 46-0 that allows Nebraskans with multiple medical prescriptions to coordinate and collect all of their medication on the same day.

LB442, introduced by Sen. John Mc-Collister of Omaha, allows for medical synchronization if medication:

Sen. John McCollister

- is covered by the patient's health benefit plan or has been approved by a formulary exception process;
- meets the prior authorization or utilization management criteria;
- treats a chronic illness;
- can be safely split into short-fill periods; and
- is not a Schedule II controlled substance.

Sen. Dan Hughes

LB228, introduced by Sen. Dan Hughes of Venango, would make it illegal for an insurance company to discriminate against organ donors.

LB501, introduce by Sen. Megan Hunt of Omaha, would require insur-

Sen. Megan Hunt

ers to cover in vitro fertilization procedures to the same extent that they cover other pregnancy-related procedures.

Both bills remain in committee.

Banking

Certain automatic teller machine fees changed under

LB603, introduced by Omaha Sen. Brett Lindstrom. The bill, passed 49-0, removes a requirement that financial institutions must charge the same ATM fees to all other financial institutions.

LB603 affects default interchange fees that are charged between institu-Sen. Brett Lindstrom

tions during an ATM transaction. It

does not change bank customer ATM fees.

A bill that would raise interest rate caps stalled on select file. LB188, also introduced by Lindstrom, would raise the maximum interest rate on installment loans to 29 percent. Currently, the interest rate on such loans is capped at 24 percent for the first \$1,000 of an unpaid balance and 21 percent on any remaining balance.

The bill advanced from general file but was removed from the agenda at Lindstrom's request. LB188 remains on select file.

LB379, introduced by Seward Sen. Mark Kolterman, would allow a payday lender that has a principal place of business in Nebraska to offer its products online. The bill also would mandate that all payday lenders use the National Mortgage Licensing System and pay an additional licensing fee to be determined by the state

Department of Banking and Finance.

Sen. Mark Kolterman

LB379 was advanced to general file but was not debated this session.

LB265, introduced by Sen. Andrew La Grone of Gretna, would create a regulation and licensure structure for unsecured consumer installment loans of less than \$1,000 with a minimum term of 180 days. The bill also would cap fees charged by lenders at 20 percent

Sen. Andrew La Grone

of the first \$300 borrowed plus 7.5 percent of the loan balance in excess of \$300.

The bill remains in committee.

Commerce

Lawmakers approved a bill that changes education requirements for new real estate licenses in Nebraska.

LB384, introduced by Sen. Lynne Walz of Fremont, prohibits an individual with a broker's license from acting as a designated broker for another licensee unless he or she has taken additional courses post-licensure.

The bill, which passed 31-10, requires that an applicant for a broker's

or salesperson's license complete six class hours in professional practice and standards and 12 class hours in real estate knowledge and skills within 180 days of being issued a license. All classes must be approved by the Nebraska Real Estate Commission.

The bill takes effect July 1, 2020.

LB12, introduced by Blood, waives the \$80 real estate license fee if a military member or their spouse has a valid real estate license from another state or regulatory jurisdiction. The bill passed 47-0 and took effect immediately.

BUSINESS & LABOR

Sen. Matt Hansen, chairperson of the Business and Labor Committee

mong the issues considered by members of the Business and Labor Committee this session were strengthening worker protections, raising the tipped minimum wage and expanding unemployment benefits and family leave.

Worker protections and wages

Lawmakers approved a bill meant to assist individuals facing collection of certain medical debts.

LB418, sponsored by Omaha Sen. Machaela Cavanaugh and passed 35-0, prohibits collection

of a debt incurred for treatment of a work-related injury while the matter is pending in the Nebraska Workers' Compensation Court

Compensation Court.

Under the bill, written notice that the matter is pending will be provided to collection agencies seeking to collect on a debt. A second notice will be

Sen. Machaela Cavanaugh

lect on a debt. A second notice will be sent within 30 days of the initial notice, including specific details of the debt.

The state attorney general is authorized to investigate collection agencies that do not comply with the bill's provisions.

The measure includes provisions of LB360, originally sponsored by Lincoln Sen. Matt Hansen. These allow the Nebraska Workers' Compensation Court to appoint a power of attorney for a claim, settlement or disbursement of money for nonresident alien dependents if the court believes the dependents are better served by someone other than the consular officer of their resident country, or if no consular officer exists.

Provisions of LB178, sponsored by Lincoln Sen. Mike Hilgers, also are included in the bill. These update and change references to the state Department of Administrative Services' risk manager and make changes to allow for a more efficient claims process.

LB217, introduced by Lincoln Sen. Patty Pansing Brooks, prohibits an employer from discharging or retaliating against any employee because he or she inquired about, discussed or disclosed comparative wage, benefit or other compensation information.

Sen. Mike Hilgers

Sen. Patty Pansing Brooks

The bill prohibits disclosure or dissemination of:

- information to a competitor;
- proprietary or other privileged information; or
- information to the general public or by an employee during work hours.

LB217 does not apply to employers that are exempt from the Nebraska Fair Employment Practice Act and does not create an obligation for any employer or employee to disclose information regarding wages, benefits or other compensation.

The bill passed on a 46-1 vote.

A measure to raise the state's tipped minimum wage remains on general file.

LB400, introduced by Omaha Sen. Megan Hunt, would

increase the tipped minimum wage from its current level of \$2.13 to 40 percent of the standard minimum wage rate in 2020 and 50 percent in 2021.

If the standard minimum wage remains at its current level of \$9.00 per hour, the minimum wage for persons compensated by way of gratuities would

Sen. Megan Hunt

be \$3.60 per hour in 2020 and \$4.50 per hour in 2021.

A pending amendment from Lincoln Sen. Anna Wishart would make a single, one-time tipped minimum wage increase to \$4.50 per hour, rather than the incremental

approach proposed in the original bill.

After two days of debate, the Legislature adjourned without taking action on LB400. Per a practice implemented by Speaker Jim Scheer, the sponsor of a bill that is facing a potential filibuster must demonstrate sufficient support for a cloture motion before the measure will be scheduled for additional debate.

Bellevue Sen. Sue Crawford's LB311, which would provide partial wage replacement for eligible workers to care for themselves or a family member following a serious illness or to care for a new child, also was passed over in accordance with the three-hour policy and did not return to the agenda.

Sen. Sue Crawford

A pending Business and Labor Committee amendment would replace the bill. As amended, covered individuals would be entitled to take leave under the bill beginning Jan. 1, 2022. Available leave would vary between six and 12 weeks during any calendar year dependent on the qualified reason for the leave.

Crawford introduced an amendment, which is pending, that would reduce available leave to four to six weeks during a calendar year, dependent on the qualified reason for leave.

A bill that would require a prospective employer to evaluate a job applicant's qualifications without an initial check of his or her criminal history advanced from committee.

LB254, as originally introduced by Sen. John McCollister

of Omaha, would have barred certain employers and employment agencies from asking about a job applicant's criminal history until the employer or agency determines whether the applicant meets the minimum qualifications of the position. The requirement would apply to businesses with 15 or more employees.

Sen. John McCollister

As amended, the bill instead would require an employer that asks an applicant to disclose his or her criminal history to afford the applicant the opportunity to explain a past conviction or other criminal history. LB254 would not apply to the state of Nebraska, local governmental agencies or political subdivisions.

The bill was advanced to final reading, where it remains. LB305, introduced by Crawford, would require employers with four or more employees to provide paid sick and safe leave. Under the proposal, employees would accrue at least one hour of paid leave for every 30 hours worked. Employees could earn up to 40 hours of paid leave per year, based on hours worked.

The bill remains in committee.

Unemployment

Certain seasonal construction employees are exempt from a specific unemployment benefit requirement under a bill passed by the Legislature.

Under LB428, introduced by Henderson Sen. Curt Friesen, highway construction employees who are prohibited by the state Department of Transportation from working during the winter months will not have to prove that they actively are searching

Sen. Curt Friesen

for employment to receive unemployment benefits.

The bill also increases the amount that construction employers contribute to the unemployment fund. LB428 passed on a 42-0 vote and takes effect Jan. 1, 2020.

An effort to expand unemployment benefits failed to pass this session.

Currently, a person who voluntarily leaves employment with "good cause" is eligible for unemployment benefits under employment security law. LB306, introduced by Crawford, would add leaving employment to care for a family member with a serious health condition to the existing list of good cause reasons.

An employee would be required to make all reasonable efforts to preserve his or her employment before voluntarily leaving.

The bill failed to pass on a 20-15 vote. Twenty-five votes were needed.

Other measures

A bill authorizing payment of claims against the state of Nebraska also passed this session.

LB464, introduced by Business and Labor Committee chairperson Hansen, was included as part of the state budget package and passed 46-1.

LB577, introduced by Omaha Sen. Tony Vargas, would grant the commissioner of labor the power to force a contractor to halt work on a site and expedite an investigation if a violation is found to threaten public health and safety.

The bill advanced from committee but was not debated this session. It remains on general file.

Finally, LB19, introduced by Albion Sen. Tom Briese, would withhold from the public record first reports of injury to the Workers' Compensation Court with certain exceptions. The bill remains in committee.

Sen. Tony Vargas

Sen. Tom Briese

EDUCATION

Sen. Mike Groene, chairperson of the Education Committee

he Education Committee considered proposals this session to update Nebraska's civic education standards, reimburse school districts for mental and behavioral health expenses and authorize teachers to physically restrain violent students.

Standards and curriculum

LB399, introduced by Sen. Julie Slama of Peru and passed on a vote of 44-2, updates social studies requirements for Nebraska

schools.

A renamed committee on American civics will hold at least two public meetings each year and ensure that a school district's social studies curriculum is accessible to the public.

Sen. Julie Slama

Each committee also will ensure that a district's curriculum aligns with state social studies standards and "teaches and assesses foundational knowledge in civics, history, economics, financial literacy and geography."

LB399 requires each school district to incorporate into its curriculum either an exam based on the 100-question civics portion of the U.S. Citizenship and Immigration

Services naturalization test or a civicsfocused project, paper or presentation.

The committee did not advance a bill that would require Nebraska schools to teach students about the Holocaust.

Howard, LB640 would expand the current definition of multicultural education to include studies related to the Holocaust and other acts of genocide, including such acts in Armenia, Bosnia, Cambodia, Rwanda, Sudan and Ukraine.

Tuition and scholarships

The committee advanced a measure that provides resident college tuition rates for spouses and dependents of active duty military personnel who are assigned to duty stations outside Nebraska.

Under LB6, introduced by Bellevue Sen. Carol Blood and passed 47-0, the spouse or legal dependent of a person who is on active duty military assignment in Nebraska is considered a resident for tuition purposes at the state's postsecondary educational institutions as long as the person was on active duty in Nebraska

at the time the spouse or legal depen-

dent was accepted for admission and he or she remains continually enrolled.

The committee also advanced a bill that increases the number of programs eligible for the state's community college gap assistance program.

The program provides funding for community colleges to provide awards to students in programs that are aligned with training programs with stackable credentials that lead to a program awarding college credit, an associate degree, a diploma or a certificate in an in-demand occupation such as health services, transportation and computer services.

Previously, only programs that are not offered for credit and that have a duration of at least 16 contact hours were eligible for the program.

Under LB180, introduced by Lincoln Sen. Kate Bolz, programs that are offered for credit but are of insufficient clock, semester or quarter hours to be

Sen. Kate Bolz

eligible for Federal Pell Grants also qualify for the program. The bill passed on a 46-0 vote.

The committee did not advance a bill under which students who major in computer science, nursing, engineering and other in-demand fields at Nebraska's university and public colleges could receive state

scholarships.

Introduced by Gering Sen. John Stinner, LB639 would provide scholarships to eligible students whose declared majors lead to a high-demand, high-wage, high-skill career as designated by the state Department of Labor.

Sen. John Stinner

Mental and behavioral health services

Several bills meant to bolster mental health services, education and training for Nebraska students and school personnel remain in committee.

Public school nurses, teachers, counselors, psychologists, administrators and social workers currently are required to receive at least one hour of suicide awareness and prevention training each year.

LB120, sponsored by Bellevue Sen. Sue Crawford, would require staff to receive instead one hour of behavioral and mental health training each year during contract hours.

The training would include suicide awareness and prevention training and

Sen. Sue Crawford

also could include identification of early warning signs and symptoms of behavioral and mental health issues, effective responses for educators, trauma-informed care and procedures for making students and parents aware of services and supports.

LB488, introduced by Howard, would change requirements related to school districts' comprehensive health education programs.

Current law requires schools to include instruction about the physiological, psychological and sociological aspects of drug use, misuse and abuse and to place a special emphasis on tobacco, alcohol, marijuana, hallucinogenics, amphetamines, barbiturates and narcotics.

LB488 would repeal that requirement and instead require schools to incorporate age-appropriate mental health education and comprehensive drug awareness and prevention education into their programs.

LB725, introduced by Fremont Sen. Lynne Walz, would create a state Department of Education fund used to re-

imburse qualifying school districts and educational service units for up to 80 percent of their allowable mental health expenditures.

To qualify for reimbursement, a district or ESU would designate a mental health resource liaison who would help students, families, teachers and schools find mental

health resources for students in the district or ESU.

Other measures

LB147, introduced by North Platte Sen. Mike Groene, would authorize a teacher or administrator to "use the necessary physical contact or physical restraint" to control a student who becomes physically violent. It also would authorize a teacher to have a disruptive student removed from the classroom under certain circumstances.

A teacher or administrator would not be subject to legal action or administrative discipline if he or she was acting in a "reasonable manner."

Groene filed a motion to place LB147 on general file, even though the Education Committee had not voted to advance it. Senators voted 25-14 to adopt the motion, which requires a majority vote of the Legislature. The bill remains on general file.

Several other bills received public hearings but were not advanced by the committee, including:

 LB73, introduced by Bayard Sen. Steve Erdman, which would require school boards to display the phrase "In God We Trust" in English in each classroom or other prominent place so that every student could see and read it each school day;

- LB358, introduced by Walz, which would change how qualified early childhood education membership is calculated for state aid purposes; and
- LB702, introduced by Omaha Sen. Machaela Cava-

naugh, which would require postsecondary educational institutions to establish rules and procedures for resolving allegations of dating violence, domestic violence, sexual assault or stalking by students and employees and provide a Sen. Machaela Cavanaugh

method for anonymously reporting those incidents whether they occur on, near or off campus.

EXECUTIVE BOARD

Sen. Mike Hilgers, chairperson of the Executive Board

egislative oversight, additional budget requirements and redistricting concerns topped the list of Executive Board issues considered by lawmakers this session.

LR104, introduced by Fremont Sen. Lynne Walz and approved 42-0, reauthorizes a legislative committee that was approved in 2018 to

committee that was approved in 20 study assisted living facilities.

The State-Licensed Care Facilities Oversight Committee is tasked with examining the lack of adequate conditions at state-licensed care facilities, the treatment of individuals residing

Sen. Lynne Walz

in such facilities, the effectiveness of state Department of Health and Human Services regulation and licensure and how the department implements and administers its behavioral health services through the behavioral health regions.

The Executive Board appointed seven state senators to serve on the committee: Sens. Curt Friesen, Steve Halloran, Lou Ann Linehan, Dave Murman, Dan Quick, Lynne Walz and Anna Wishart.

The committee will issue a report to the Legislature by

Dec. 15, 2019.

Lawmakers also extended a time frame for the authority of the deputy public counsel for institutions.

The public counsel—also known as the state Ombuds-man's Office—is an independent office that handles citizen complaints regarding the actions of administrative agencies of Nebraska state government.

Currently, the authority of the deputy public counsel for institutions extends to individuals who have been patients at a state-owned or state-operated regional center within the prior 12 months. LB600, introduced by Walz, extends that time frame to 24 months.

The bill includes provisions of Lincoln Sen. Kate Bolz's

LB330 that eliminate the July 2019 termination date for the Nebraska Children's Commission. Under the provisions, the commission will become a permanent forum for collaboration among state, local, community, public and private stakeholders in child welfare and juvenile justice programs and services.

Sen. Kate Bolz

Also included are provisions of Bolz's LB332, originally considered by the Health and Human Services Committee, which revise the Youth Bridge to Independence Program—a system of supports for older teenagers and young adults who are at or near the end of their time in foster care.

The bill expands the program to include young adults who age out of the state's juvenile justice system. It also limits participation in the program to Nebraska residents and eliminates benefits to recipients who already are receiving residential funding through the home and community-based waiver program.

LB600 passed 39-0 and took effect immediately.

LB572, a measure proposed by Walz that would expand the oversight powers of the Ombudsman's Office to include licensed assisted living facilities, remains in committee.

Sponsored by Lincoln Sen. Adam Morfeld, LB631 would create the Medicaid Expansion Task Force to provide oversight and facilitation of Medicaid expansion, which was approved by voters in 2018.

Id Sen. Adam Morfeld

The 13-member task force would hold public hearings in each of the

state's three congressional districts and submit a report to the Legislature. The bill remains in committee.

A bill that requires the Legislature to apply a long term

A bill that requires the Legislature to analyze long-term fiscal sustainability by adding a new step to the state budget process was approved this session.

LB713, introduced by Omaha Sen. Tony Vargas and passed 49-0, requires the legislative fiscal analyst to create additional revenue and budget reports throughout the biennium. The reports include a revenue volatility report in even-numbered years, a budget stress test in odd-numbered years and a long-term budget for major programs every four years.

Sen. Tony Vargas

The Executive Board also considered four proposals this session regarding the Legislature's redistricting process.

Currently, the Legislature is responsible for drawing new governmental boundaries every 10 years after the decennial census for districts pertaining to the U.S. House of Representatives, Legislature, Public Service Commission, University of Nebraska Board of Regents, state Board of Education and Nebraska Supreme Court.

Redistricting will be undertaken next in 2021.

LB466, introduced by Omaha Sen. Sara Howard, would adopt the Redistricting Act.

Among other provisions, the act would specify the Legislature's redistricting process and require that new district

Sen. Sara Howard

maps be drawn using state-issued computer software and politically neutral criteria.

Other redistricting proposals considered were:

> • LB253, sponsored by Omaha Sen. John McCollister, which would establish an Independent Redistricting Citizen's Advisory Commission, to be established by Jan. 30 of each redistricting year;

Sen. Wendy DeBoer

• LB467, sponsored by Vargas, which would prohibit consideration of the political affiliation of registered voters, demographic information other than population figures and results of previous elections when drawing boundaries for legislative districts. Information required by federal law or the U.S. Constitution would be exempted under the bill.

None of the redistricting measures advanced from committee.

GENERAL AFFAIRS

Sen. Tom Briese, chairperson of the General Affairs Committee

awmakers made changes to the regulation of mechanical amusement devices, the Nebraska Lottery and vapor and tobacco products this session.

Alcohol and tobacco

LB149, introduced by Sen. Dan Quick of Grand Island,

raised the legal age from 18 to 19 for purchasing and possessing tobacco products, electronic nicotine delivery systems and flavored liquids containing nicotine.

Individuals younger than 19 who purchase or use tobacco, electronic delivery systems or flavored liquids containing nicotine will be guilty of a

Sen. Dan Quick

Class V misdemeanor and an individual selling or providing such products to those under 19 will be guilty of a Class III misdemeanor.

The bill does not apply to alternative nicotine products that are not sold in combination with a substance containing nicotine, tobacco or tobacco derivatives. LB 149 passed 45-0.

Non-licensed home alcohol brewers can now partici-

pate in certain public events. LB235, introduced by Sen. Sue Crawford of Bellevue, allows home brewers to offer their product without a permit at exhibitions, festivals, tastings and competitions as long as the alcohol is not for sale. The bill was approved on a 45-0 vote.

Farm wineries were redefined under a bill passed this session. LB592, as originally introduced by Albion Sen. Tom Briese, would have addressed the state Liquor Control Commission's ability to close establishments under the Liquor Control Act.

Those provisions were removed and replaced with portions of LB584, introduced by Lincoln Sen. Mike Hilgers,

which reduce from 75 to 60 the percentage of fruit or other suitable agricultural product grown in Nebraska required to meet the definition of farm winery. The bill also increases from one to four the number of branch outlets that allow sampling and sale of a farm winery's product.

Sen. Mike Hilgers

LB592 passed 47-0.

Briese also introduced LB591, which would allow a municipality or county board to apply to the LCC to create an alcohol impact zone. Among other provisions, the bill would require that an application include evidence that chronic public intoxication or illegal activity associated with alcohol sales has harmed the quality of life within the zone.

The bill remains in committee.

Two bills introduced by Omaha Sen. Tony Vargas also remain in committee: LB682, which would tax alcoholic spirits as proof gallons—liquor that is at least 50 percent alcohol; and LB723, which would lower the per-gallon excise tax on beer, wine and spirits.

Sen. Tony Vargas

Gaming

LB538, introduced by Omaha Sen. Steve Lathrop, added electronic games of skill to the definition of a mechanical amusement

device and requires the state Department of Revenue to determine if such devices are games of skill or chance.

Device distributors will pay a \$500 application fee, submit a sample game to the department, provide evidence

Sen. Steve Lathrop

that the device is a game of skill and provide an affidavit to the tax commissioner that no functional changes will be made to the device's hardware or software without the commissioner's approval after the license is granted.

LB538 also requires game owners to pay an annual \$250 licensure fee per device, sets a maximum number of devices per establishment, sets 19 as the legal age to play devices and prohibits use of credit or debit cards for payment.

The bill was approved on a 44-0 vote.

In another change to gaming law, the odds of winning will be posted on all Nebraska Lottery advertisements.

LB252, introduced by Sen. Suzanne Geist of Lincoln and passed 45-0, requires that all state lottery ads disclose the odds of winning the largest prize in

Sen. Suzanne Geist

a font no smaller than 35 percent of the largest font used in the ad. Online advertisements must disclose the odds in at least 10 point font.

Two additional bills were advanced by the committee

but were not debated this session.

LB137, introduced by Bellevue Sen. Carol Blood, would require daily fantasy sports operators—like Fan Duel and Draft

Kings—to register with the state Department of Revenue.

Sen. Carol Blood LB41, introduced by Sen. Robert Hilkemann of Omaha, would increase revenue directed to the Compulsive Gamblers Assistance Fund.

Both bills remain on general file.

Sen Robert Hilkemann

GOVERNMENT, MILITARY & VETERANS AFFAIRS

Sen. Tom Brewer, chairperson of the Government, Military and Veterans Affairs Committee

lection law, tourism merchandising, public records law and open meeting rules were discussed by lawmakers this session.

Elections

LB411, introduced by Sen. Jim Scheer of Norfolk, changed numerous election laws.

The bill, approved on a 46-0 vote, allows county boards to place a question on the ballot regarding a change in county board membership. The bill applies to counties with a population of less than 400,000 people that are not under township organization.

Sen. Jim Scheer

Under LB411, a qualifying county board may adopt a resolution by majority vote to allow voters to alter the number of commissioners on the board.

Included were provisions of 10 additional bills:

- LB98, introduced by Omaha Sen. Justin Wayne, which changes the number of signatures needed by a candidate to appear on a ballot to 4,000;
- LB101, also introduced by Wayne, which changes provisions of the Nebraska Political

Sen. Justin Wayne

Accountability and Disclosure Act relating to a potential conflict of interest by an elected office holder of certain cities or villages or a school district;

- LB246, introduced by Gordon Sen. Tom Brewer, which makes technical changes to several election procedures;
- LB280, also introduced by Brewer, which increases the maximum fine under the Nebraska Accountability and Disclosure Act from

\$2,000 to \$5,000;

• LB342, introduced by Gretna Sen. Andrew La Grone, which moves oversight of metropolitan utilities district elections from county election commissioners to the Nebraska secretary of state's office;

Sen. Andrew La Grone

• LB522, introduced by Elkhorn Sen. Lou Ann Linehan, which authorizes the Douglas County board to appoint a department director and have final say in personnel matters;

Sen. Lou Ann Linehan

- LB574, introduced by Brewer, which allows the members of a metropolitan utilities district to set the date of monthly meetings;
- LB608, introduced by La Grone, which removes outdated language regarding electronic voting and

allows ballots to be counted at polling places;

• LB618, introduced by Lincoln Sen. Mike Hilgers, which redefines election-

Sen. Mike Hilgers

duced by Sen. Rick Kolowski of Omaha, which expands access to the polls for voters with disabilities.

Several other election-related bills did Sen. Rick Kolowski

not advance from committee, including LB415, introduced

by Sen. Curt Friesen of Henderson, which would end the petition process to recall certain local elected officials; and LB83, introduced by Wayne, which would restore voting rights upon completion of a felony prison sentence or probation. Currently, ex-felons must wait two years before being able to register to vote.

Sen. Curt Friesen

Other bills

The Nebraska Tourism Commission can now better capitalize on its slogan: "Honestly, it's not for everyone."

LB637, introduced by Sen. John Stinner of Gering, authorizes the commission to develop and approve state marketing campaigns and develop and sell tourism products. Revenue generated by any sales will be credited to the commission's promotional cash fund. The bill passed on a 49-0 vote and took effect immediately.

Sen. John Stinner

Gov. Pete Ricketts vetoed a bill intended to increase

Nebraska's participation in the 2020 U.S. census. LB436, introduced by Lincoln Sen. Matt Hansen, would have granted the Nebraska State Data Center program the authority to form a commission that could have solicited private funds to carry out its duties.

Sen. Matt Hansen

The bill passed 38-4, but was vetoed by the governor after the Legislature had adjourned sine

Current law allows for withholding certain information from disclosure under Nebraska's public records law. In-

troduced by Sen. Tom Briese of Albion, LB16 adds physical and cyber assets of critical energy or electric infrastructure, if the disclosure would threaten national security, public health or safety.

Sen. Tom Briese

The bill also prohibits disclosure of the identity of personnel whose primary job makes them responsible for provid-

ing or granting access to physical or cyber assets or operating and maintaining those assets, if a reasonable person would conclude that such a public disclosure would create a substantial likelihood of risk to those assets.

LB16 passed on a 45-0 vote.

Lawmakers also approved a bill intended to clarify jurisdiction over five tracts of land inside the fence line of Offutt Air Force Base. LB214, introduced by La Grone, cedes all civil and criminal jurisdiction over the land tracts to the federal government. The bill passed 46-0.

LB511, introduced by Brewer and passed 48-0, allows state employees to devote one hour a week to youth mentoring programs. Paid leave for this purpose is not authorized under the bill.

Nebraska's largest counties and cities are allowed to use an alternative design method for transportation projects under LB583, introduced by Hilgers. The bill, passed on a 47-0 vote, allows counties of 150,000 or more residents and metropolitan and primary class cities to use a design-build method for projects that fall under the Transportation Innovation Act.

The Government, Military and Veterans Affairs Committee introduced LB212, which expands the use of teleconferencing for public meetings of risk management pools, organizations created under the Municipal Cooperative Financing Act and those created under the Interlocal Cooperation Act that sell electricity or natural gas at wholesale on a multistate basis.

The bill allows those organizations to designate a nonvoting individual, not included as part of the quorum, to be present at a site where a public hearing is being held to keep the site open for members of the public who wish to attend the public hearing by telephone conference or videoconference.

LB212 allows qualified entities to hold more than 50 percent of their meetings by telephone or videoconferencing as long as at least one meeting is not held in that manner. It also extends the allowed length of a telephone conference call from two hours to no more than five hours.

The bill includes portions of LB191, introduced by

La Grone, and LB239, introduced by Adams Sen. Myron Dorn. LB191 harmonizes bond definitions and deletes obsolete language regarding financial instruments, and LB239 amends the County Budget Act to require the same four-day notice mandated in the Nebraska Budget Act.

Sen. Myron Dorn

LB212 passed 49-0.

A bill to better account for federal money flowing into Nebraska advanced out of committee but was not scheduled for debate. LB337, introduced by Stinner, would require the state Department of Administrative Services to create a list of all state agencies receiving federal funds, document requirements associated with federal grants and develop a contingency plan in case of a reduction in federal funding. The bill remains on general file.

HEALTH & HUMAN SERVICES

Sen. Sara Howard, chairperson of the Health and Human Services

ublic benefit requirements, licensure changes and pharmacy practice updates were the top health and human services issues addressed by lawmakers this session.

Public benefits

LB570, introduced by Sen. Lynne Walz of Fremont, requires the state Department of Health and Human Services to develop a plan to provide services to qualified individuals with disabilities in the most integrated community-based settings,

DHHS is required to develop the plan with the University of Nebraska,

known as an "Olmstead Plan."

the Equal Opportunity Commission and the state departments of Correctional Services, Economic Development, Labor, Transportation and Education. The plan will be completed by Dec. 15, 2019.

The bill also adds the Commission for the Deaf and Hard of Hearing, the Commission for the Blind and Visually Impaired and the Public Service Commission to the Olmstead Plan stakeholder advisory committee.

LB570 requires DHHS to work with an independent consultant to assist with continued analysis and revision of the Olmstead Plan. This analysis will be provided in a report to the Legislature by Dec. 15, 2021, and every three years going forward.

The bill passed 44-0 and took effect immediately.

A measure that delays the transition of long-term care facilities to the state's Medicaid managed care program passed this session.

LB468, also introduced by Walz, prohibits long-term care and supports—including skilled nursing facilities, nursing facilities, assisted living facilities and home and community-based services—from being added to the Medicaid managed care program before July 1, 2021.

The bill includes provisions of LB566, sponsored by Sen. Sue Crawford of Bellevue, which require notification and a hearing of the Banking, Commerce and Insurance Committee if the state Department of Insurance submits an innovation waiver to the federal government under section 1332 of the Affordable Care Act.

Sen. Sue Crawford

Notification—and a public hearing of the Health and Human Services Committee during the public comment period—also are required for a Medicaid waiver submitted under section 1115 of the federal Social Security Act.

LB468 passed on a 43-1 vote.

A bill that would remove a ban on food assistance eligibility for individuals with past drug felonies stalled during general file debate.

Under current state law, an individual is ineligible for SNAP benefits in Nebraska if he or she has three or more felony convictions for the possession or use of a controlled substance or has been convicted of a felony involving the sale, distribution of-or intent to sell or distribute-a controlled substance.

A person with one or two felony convictions for possession or use of a controlled substance is eligible only if he or she is participating in or has completed a state-licensed or nationally accredited substance abuse treatment program since the date of conviction.

As introduced, LB169, sponsored by Omaha Sen. Megan Hunt, would remove that ban. The bill also would apply the treatment requirement to individuals with three or more possession or use convictions.

After several hours of debate, the Legislature adjourned for the day before voting on LB169 or any of the pending amendments. Per a practice implemented by Speaker Jim Scheer, the sponsor of a bill that is facing a potential filibuster must demonstrate

sufficient support for a cloture motion before the measure will be scheduled for additional debate.

The bill remains on general file.

The committee heard testimony on another proposed SNAP eligibility change.

LB255, sponsored by Omaha Sen. John McCollister, would increase the SNAP gross income eligibility limit from 130 percent of the federal income poverty level to 140 percent beginning Sept. 1, 2019. The bill, which would not increase the net income eligibility limit for the program, remains in committee.

Sen. John McCollister

Lawmakers advanced a bill that would make changes to a program meant to help individuals with disabilities maintain employment while retaining Medicaid coverage.

LB323, introduced by Crawford, would update eligibility standards for Nebraska's Medicaid Insurance for Workers with Disabilities program—commonly referred to as the Medicaid buy-in program—from federal Balanced Budget Act standards to more recent federal Ticket to Work and Work Incentives Improvement Act standards.

Senators advanced the bill to final reading this session, where it remains.

A bill that would require family planning services in Nebraska to be covered by Medicaid remains in committee.

Sen. Anna Wishart of Lincoln introduced LB498, which would direct DHHS to submit a state plan amendment to the federal Centers for Medicare and Medicaid to include medical assistance for family planning services to individuals with an income at or below 194 percent of the federal poverty level.

Sen. Anna Wishart

Licensure and credentialing

Senators passed a bill that waives initial licensing fees for a variety of health professions under the Uniform Credentialing Act.

LB112, introduced by Omaha Sen. Sara Howard, waives initial licensing fees for individuals who:

- are 18 to 25;
- have a household income less than 130 percent of the federal poverty level or are enrolled in a state or federal assistance program; and
- are active duty services members or their spouses, honorably discharged veterans or their spouses and un-remarried surviving spouses of deceased service members.

The bill was approved by a vote of 37-0.

The timeline for abuse complaints was tightened this session.

LB59, introduced by Sen. Machaela Cavanaugh of Omaha and passed 49-0, mandates

that DHHS respond within five days to all complaints of child abuse or neglect made at a facility licensed under the Children's Residential Facilities and Placing Licensure Act.

If a complaint leads to an inves-

Sen. Machaela Cavanaugh

tigation, the department is required to issue a report within 60 days. The requirement could be extended to 90 days if DHHS files an interim report by the 60-day deadline.

Lawmakers also approved a bill that allows mental health substance use treatment facilities that use locked rooms to retain licensure.

LB200 was introduced by Wishart after DHHS considered revoking the operating license of The Bridge Behavioral Health facility in Lincoln last year because it uses locked rooms for clients placed into civil protective custody. Senators approved the bill on a 44-0 vote.

LB244, sponsored by Bayard Sen. Steve Erdman and passed 45-0, authorizes mobile massage therapy establishments to be operated by individuals licensed under the Massage Therapy Practice Act.

Sen. Steve Erdman

may be performed only while a mobile massage therapy unit is legally parked and a unit cannot conduct business within 300 feet of a brick and mortar licensed massage therapy establishment.

Residential child care workers must submit to a new federally mandated background check under a bill approved by lawmakers.

LB460, sponsored by the Health and Human Services Committee, mandates that any adult employed at a residential child-caring agency pay for fingerprinting and a national criminal history record information check at least once every five years. An employee also will be checked against state sex offender, criminal and child abuse and neglect registries.

The bill includes provisions of Howard's LB459 that require all prospective child care staff members to submit to a criminal history record check prior to employment, beginning Sept. 1, 2019. Child care staff currently employed will have until Sept. 1, 2021.

It also includes provisions of LB341 introduced by La

Vista Sen. John Arch, which allow families to continue to receive transitional child care if their income is below 185 percent of the federal poverty level as long as the family's income does not exceed 85 percent of the Nebraska median income for a family of the same size. The bill also eliminates the program's 24-month eligibility limit.

Sen. John Arch

LB460 was approved on a vote of 48-0 and took effect immediately.

Four licensure bills were advanced by the committee but were not scheduled for general file debate this session.

LB205, introduced by Sen. Mark Kolterman of Seward, would require a registry for surgical technicians. To register, a surgical technician would be required to document any felony or misdemeanor convictions, be at least 19 years old, have a high school or equivalent diploma and be of good moral character.

Sen. Mark Kolterman

Among other provisions, LB607, also introduced by Kolterman, would create a three-day license for a "guest body artist"—enabling him or her to work at a licensed tattoo establishment or under a licensed body artist—create the position of nail technology apprentice, allow an apprentice to work under

a licensed nail technologist and update the definition of cosmetic tattooing.

LB312, introduced by Blair Sen. Ben Hansen, would allow licensed dental hygienists to perform residential care through a home-health agency or hospice service. The bill also would eliminate a requirement that a dental hygienist have 3,000 hours of clinical experience to treat adults unsupervised in a public health setting.

All four bills remain on general file.

session.

Sen. Ben Hansen

Sen. Dave Murman

Other measures

Lawmakers approved a bill that makes several changes to the state's prescription drug monitoring program.

LB556, introduced by Sen. Sara Howard of Omaha, makes a number of changes designed to make the PDMP interact more effectively with appropriate agencies, other state drug monitoring programs and state and regional health information exchanges.

The bill also contains provisions of LB557, introduced by Omaha Sen. Brett Lindstrom, that amend the definition of a practitioner to include additional providers if they are members of a patient's care team. The provisions also change the first and third prescription to a 60-day look back and add an exemption for hospice and

palliative care or a cancer diagnosis.

Sen. Brett Lindstrom

The measure passed on a 44-0 vote and took effect immediately.

LB559, sponsored by Arch and passed 43-0, makes a number of changes to laws related to the State Anatomical Board that incorporate provisions of the Revised Uniform Anatomical Gift Act. Among other provisions, the bill details who may receive an anatomical gift under a variety of circumstances and names the board as an approved recipient of an anatomical gift.

The Legislature also passed a bill to fund enhanced safety training for medical professionals.

LB25, introduced by Kolterman and passed 47-0, creates the Patient Safety Cash Fund to receive credentialing fees that will be used solely to support patient safety activities conducted by the Nebraska Coalition of Patient Safety. The bill imposes biennial fees of \$50 for physicians and osteopathic physicians and \$20 for physician assistants through 2025.

A bill that would increase resources to combat human trafficking was advanced to general file but was not scheduled for debate this

LB518, sponsored by Elkhorn Sen. Lou Ann Linehan, would develop a statewide network of supports and services related to human trafficking and create the Support for Trafficking Survivors advisory board.

Sen. Lou Ann Linehan

JUDICIARY

Sen. Steve Lathrop, chairperson of the Judiciary Committee

awmakers considered measures this session to ensure fair treatment for minors engaged in the court system, legalize medical cannabis and provide additional oversight of the state correctional system.

The Legislature approved an omnibus bill that makes numerous changes to current criminal justice statutes.

LB686, as introduced by Omaha Sen. Steve Lathrop, would have imposed new requirements on the Nebraska Department of Correctional Services for declaring a prison overcrowding emergency.

The bill was replaced with provisions of several addi-

tional measures, including LB91, sponsored by Omaha Sen. Justin Wayne, which allows a court to enter a deferred judgement for a person found guilty of committing a crime. Persons granted a deferred judgment instead can be placed on probation. After successful completion of the terms of probation, he can also will have their charge diagrants.

Sen. Justin Wayne

he or she will have their charge dismissed without the entry of judgment.

Provisions of Wayne's LB233 also are included in the bill. These prohibit a person from bringing an electronic communication device into a correctional facility or providing it to an inmate. Violation of this provision will be a Class I misdemeanor, punishable by up to one year in prison, a \$1,000 fine or both.

Attorneys, public counsel employees, law enforcement and first responders are exempt from the prohibition. The NDCS director also can exempt certain staff members as necessary. Seizure of an electronic communication device is authorized.

Also included are portions of LB739, sponsored by

Omaha Sen. Tony Vargas, which prohibit NDCS, after March 1, 2020, from placing a member of a vulnerable population in restrictive housing. Vulnerable populations include inmates who are younger than 18, pregnant or diagnosed with serious mental illness, developmental disabilities or traumatic brain injury.

Sen. Tony Vargas

The bill does not prevent NDCS from establishing secure mental health housing or placing vulnerable inmates in temporary segregation pending classification.

Finally, LB686 includes provisions of four additional bills:

- LB90, sponsored by Wayne, which removes a requirement for post-release supervision for Class IV felonies;
- LB240, sponsored by Lincoln Sen. Matt Hansen, which allows the state Department of Health and Human Services to contract with private facilities to provide treatment to criminal defendants found to be mentally incompetent to stand trial;

Sen. Matt Hansen

LB262, sponsored by Bennington Sen. Wendy DeBoer, which requires the NDCS director to share the annual restrictive housing report with members of the long-term restrictive housing work group prior to release of the report; and

Sen. Wendy DeBoer

 LB684, sponsored by Lathrop, which allows judges to sentence a person found to have violated terms of post-release supervision to a period of incarceration equal to the length of his or her original term of post-release supervision.

The bill passed on a 46-0 vote.

Courts

Omaha Sen. Machaela Cavanaugh introduced LB532,

passed 47-0, which harmonizes the application procedures for the three types of protection orders authorized under state law: harassment, sexual assault and domestic abuse.

Under the bill, if an application for a temporary protection order is dismissed, it will be dismissed with-

Sen. Machaela Cavanaugh

out prejudice. The petition for a protection order must include the events and dates, or approximate dates, of the alleged assault or abuse, including the most recent and most severe incidents.

The court where the petition is filed can decide to issue a temporary protection order "ex parte," or without giving notice to the respondent, if the petitioner believes the respondent poses an immediate and significant safety risk.

If the court rejects an application for a sexual assault or domestic abuse protection order, LB532 requires that an evidentiary hearing be held within 14 days. The court will be required to admit the original petition and affidavit into evidence. The petitioner for a protection order cannot be found to be in violation of his or her protection order.

Senators supported an effort to increase transparency in the use of jailhouse informants this session.

Under LB352, introduced by Lincoln Sen. Adam Morfeld, if a prosecutor intends to use the testimony of a jailhouse informant, he or she is required to provide certain information to the defense regarding the informant's history.

Sen. Adam Morfeld

a crime committed by the informant. The bill passed on a 48-1 vote. Lawmakers also approved several measures this session

to protect the rights of juveniles engaged in the criminal justice system.

LB354, introduced by Lincoln Sen. Patty Pansing Brooks, requires that any juvenile's record be sealed automatically upon satisfactory completion of diversion, mediation, probation, supervision or other treatment program.

Under the bill, a juvenile's record will be sealed automatically if no charges are filed or if the charges are

Sen. Patty Pansing Brooks

dismissed. If a record is not automatically sealed, the juvenile or his or her parent can file a motion to have it sealed six months after the case has been closed or when the juvenile has reached the age of majority, whichever is sooner.

The bill allows the state court administrator to permit viewing of a sealed record for bona fide research. LB354 passed on a 46-0 vote.

Omaha Sen. Tony Vargas sponsored LB478, passed 46-0, which makes a victim's consent inadmissible in any civil case alleging sexual penetration when a perpetrator is 19 or older and the victim is younger than 16. It also makes inadmissible a victim's consent in a civil case alleging sexual contact when a perpetrator is 19 or older and the victim is younger than 15.

Under LB231, introduced by Pansing Brooks, legal counsel would be appointed each time a juvenile court petition is filed. The juvenile and his or her parent or guardian would be informed of the right to retain such counsel as needed.

LB231 was advanced to general file by the committee but was not scheduled for debate.

The use of restorative justice programs in Nebraska was expanded by lawmakers this session.

LB595, introduced by Thurston Sen. Joni Albrecht,

specifies that any restorative justice agreement reached between parties is considered confidential. It makes any admission, confession or incriminating information obtained through a restorative justice program inadmissible as evidence against a juvenile—except as rebuttal or impeachment evidence—in

Sen. Joni Albrecht

any future juvenile adjudication or criminal proceeding.

The bill also changes membership of the 15-member dispute resolution advisory council to include a district court judge, county court judge and juvenile court judge, as well as representatives from the Office of Parole Administration, Nebraska State Bar Association and Nebraska County Attorneys Association.

LB595 passed on a 47-0 vote.

LB300, sponsored by Lathrop and passed 43-0, increases Nebraska Supreme Court judges' salaries for fiscal year 2019-20 and FY2020-21. The current salary is \$173,693.

District, county, juvenile, appellate and workers' compensation court judges' salaries statutorily are based on a percentage of the Supreme Court judges' salaries and will be adjusted accordingly. Salaries will increase by 3 percent each fiscal year, totaling \$181,588 in FY2019-20 and \$187,036 in FY2020-21.

Lathrop also introduced LB309, passed 46-0, which

adds one district court judge, increasing the number in Douglas County to 17.

Certain legal motions are eligible for immediate appeal under LB179, sponsored by Lincoln Sen. Mike Hilgers. The bill makes an order denying a motion for summary

order denying a motion for summary judgment eligible for immediate appeal if the motion is based on an assertion of sovereign immunity or the immunity of a government official. The bill passed 43-0.

Sen. Mike Hilgers

An effort this session to repeal Nebraska's death penalty failed to advance from general file.

The Legislature abolished the death penalty in 2015, overriding a veto by Gov. Pete Ricketts. Voters then rejected the repeal measure in the 2016 general election, maintaining capital punishment in Nebraska.

LB44, sponsored by Omaha Sen. Ernie Chambers, would replace death penalty provisions with a sentence of life without the possibility of parole. The bill would apply retroactively to inmates currently serving capital punishment sentences.

Sen. Ernie Chambers

Senators voted 17-25 on the advancement of LB44 to select file, eight votes short of the number required.

Law enforcement

Gordon Sen. Tom Brewer sponsored LB154, which directs the Nebraska State Patrol to conduct a study of missing Native

American women and children.

The study will be conducted in conjunction with the state Commission

Sen. Tom Brewer

Nebraska State Patrol will submit a final report of its findings to the Executive Board of the Legislature by June 1, 2020.

The bill passed on a 45-0 vote.

LB390, introduced by Pansing Brooks, requires the state Department of Education to distribute a model memorandum of understanding to govern the use of school resource officers or security guards by Dec. 1, 2019. Any law enforcement agency providing school resource officers will be required to adopt an MOU with the school district by Jan. 1, 2021.

The MOU will include training requirements for all school resource officers or security guards employed by

a district as well as at least one administrator. A school district is required to maintain records of each student referral for prosecution by a school resource officer, including the reason for each referral and federally identified demographic characteristics of each student.

The bill passed on a 48-0 vote.

The committee considered a proposal that would govern how Nebraska law enforcement agencies enforce immigration policies.

The director of U.S. Immigration and Customs Enhancement currently can delegate immigration enforcement functions to state and local law enforcement officers who receive appropriate training and operate under the supervision of ICE officers.

LB369, sponsored by Vargas, would require a law enforcement agency or jail that enters into such an agreement with any other public agency to investigate, interrogate, detain, detect or arrest people for immigration enforcement purposes to provide written notification to the governing body of its political subdivision at least 30 days before entering into the agreement.

The bill was advanced to general file but was not scheduled for debate.

Penalties

Senators approved a bill to extend and eliminate certain statutes of limitation for labor and sex trafficking.

LB519, introduced by Peru Sen. Julie Slama, eliminates

a statute of limitation for creation of child pornography or labor or sex trafficking of a minor.

The bill increases the statute of limitations from three years to seven for labor or sex trafficking of an adult. It extends the statute of limitations for possession of child pornography to

Sen. Julie Slama

seven years, or seven years beyond a victim's 18th birthday.

It also allows law enforcement to apply for wiretap authorization to intercept electronic communications relating to labor or sex trafficking of adults and minors.

The measure includes provisions of four additional bills. LB517, originally introduced by Pansing Brooks, enumerates the types of damages a trafficking victim may recover for physical and mental pain and suffering, the reasonable value of medical care and supplies, transportation, housing, child care, lost wages and potential relocation costs.

Pansing Brooks also introduced LB516, which requires DHHS to collect and report information on the traffick-

ing of minor children and expands the definition of child abuse to include placing a child in a situation to be sexually abused or exploited. It also expands the definition of outof-home child abuse to include cases where the perpetrator of such abuse is not a member of the victim's household, no longer has access to the victim or is unknown or cannot be identified.

Finally, portions of LB479, introduced by Lincoln Sen. Anna Wishart, prohibit a law enforcement officer from using consent as a defense for sexual contact with a person who is detained or in custody. The provisions also codify that any person

Sen. Anna Wishart

LB519 passed on a 46-0 vote.

to consent to sexual contact.

Omaha Sen. Justin Wayne sponsored LB496, which makes witness, informant or jury tampering a Class II felony when the underlying criminal charge is a Class II felony or higher. A Class II felony carries a penalty of one to 50 years in prison.

The tampering penalty is a Class I misdemeanor when the underlying criminal proceeding alleges a Class II misdemeanor or lower, or a violation of a city or village ordinance. A Class I misdemeanor carries a penalty of up to one year in prison, a \$1,000 fine or both.

The bill passed on a 48-0 vote.

Lincoln Sen. Adam Morfeld introduced LB630, which creates the offense of distributing a private image of another person's intimate area or of a person engaged in sexually explicit conduct.

A person who violates this provision will be charged with a Class I misdemeanor for a first offense. Second and subsequent offenses are a Class IV felony, punishable by up to two years in prison with 12 months post-release supervision, a \$10,000 fine or both.

LB630 also creates the offense of threatening to distribute intimate images with the intent to intimidate, threaten or harass a person. Violation of this provision is a Class I misdemeanor.

The bill provides an affirmative defense for juveniles who possess a visual depiction that was knowingly and voluntarily provided by another juvenile who is within four years of age of the defendant. LB630 passed on a 47-0 vote.

A victim of the intentional or threatening distribution of intimate images could seek damages under LB680, sponsored by Bennington Sen. Wendy DeBoer and passed 47-0. The bill allows a prevailing plaintiff to recover economic and noneconomic damages proximately caused by a defendant, including damages equal to any monetary gain

made by the defendant and for emotional distress.

If actual damages cannot be quantified, the court can award reasonable presumed damages-not to exceed \$10,000-against each defendant. LB680 also holds internet service providers liable only if actively involved in the creation or distribution of the prohibited material.

Correctional system

Omaha Sen. Machaela Cavanaugh introduced LB690, which prohibits the use of restraints on a pregnant prisoner or detainee unless she poses an extraordinary flight or security risk.

Under the bill, if restraints are used on a pregnant prisoner or detainee, it must be in the least restrictive manner necessary. The administrator of the detention facility must notify relevant medical staff of the risks and dangers of removing the restraints from the specific prisoner or detainee.

A detention center administrator also must document the extraordinary circumstances that necessitated the use of restraints within 10 days of an incident. Restraints are to be removed immediately if a health care professional treating a pregnant woman requests it, and restraints are prohibited without exception during active labor or childbirth.

LB690 also allows a prisoner or detainee who is improperly restrained to bring a civil action under the Political Subdivisions Tort Claims Act or the State Tort Claims Act.

The bill passed on a 41-0 vote.

LB443, introduced by Omaha Sen. John McCollister and passed 32-9, requires that any communication between an inmate and attorney through telephone or videoconferencing be provided without charge to the inmate. The bill also prohibits recording of the communication by the correctional institution or a law enforcement agency.

Sen. John McCollister

Other measures

A bill that requires medical professionals to provide additional information to women seeking abortions passed this session.

LB209, introduced by Thurston Sen. Joni Albrecht, requires medical providers to inform a woman seeking an abortion that the first of two drugs administered during a medical abortion—mifepristone—is not always effective in ending a pregnancy.

In addition to other information already required under existing law, the bill requires a provider to inform a woman that if she changes her mind and wants to continue a pregnancy after taking mifepristone, she may consult the DHHS website.

The bill directs DHHS to publish information on the agency's website about the effectiveness of mifepristone in ending pregnancy as well as contact information for medical assistance.

DHHS will collect data from medical providers every time a woman attempts to continue a pregnancy after taking an initial dose of mifepristone. The data collected will include the woman's age, facility location, name of the attending physician, any complications experienced and other relevant medical information.

The information will be included in the annual DHHS report on abortion in Nebraska.

LB209 also includes provisions of LB13, originally sponsored by Bellevue Sen. Carol Blood and considered by the Revenue Committee, which exempts breastfeeding from the state's public indecency statutes.

Sen. Carol Blood

The bill passed on a 36-12 vote.

The removal of an obsolete provision in the state constitution will be placed on the ballot for voters' consideration under LR1CA, introduced by Omaha Sen. Justin Wayne and passed 44-0. The measure will place a proposed constitutional amendment on the November 2020 general election ballot to remove an exemption that prohibits slavery and indentured servitude except as punishment for people convicted of a crime.

Lincoln Sen. Matt Hansen sponsored LB433, which requires landlords automatically to provide the balance due on a security deposit to a tenant within 14 days of termination of a rental agreement.

If a landlord fails to return a security deposit within 14 days, the tenant can recover any property or money due to him or her, as well as liquidated damages equal to one month's rent plus costs and reasonable attorney's fees.

If a government entity deems a residence to be uninhabitable due to negligence, the tenant is not liable for any damage as a direct result of forcible removal.

The bill also includes provisions of Hansen's LB434, which extend the period of time for payment of rent after a notice of intent to terminate from three to seven days.

A tenant can recover liquidated damages equal to one month's rent or twice the amount of the security deposit—whichever is less—if the landlord's failure to return the security deposit was willful and in bad faith.

Landlords must remit any unclaimed security deposit to the state treasurer for disposition under the Uniform Disposition of Unclaimed Property Act if returned undeliverable or if the deposit remains outstanding 30 days after the initial mailing.

The bill passed on a 39-1 vote.

A bill to approve certain forms of cannabis for medical use failed to advance from general file.

LB110, introduced by Lincoln Sen. Anna Wishart, would create a framework for legalizing medical cannabis use in Nebraska. After three hours of debate, the Legislature adjourned for the day before voting on the bill or the pending amendments. Per a practice implemented by Speaker Jim Scheer, the sponsor of a bill that is facing a potential filibuster must demonstrate sufficient support for a cloture motion before the measure will be scheduled for additional debate.

A bill that would protect employees from discrimination based on sexual orientation and gender identity also failed to advance from general file.

Introduced by Lincoln Sen. Patty Pansing Brooks, LB627 would prohibit employers, employment agencies and labor unions from discriminating against individuals based on their sexual orientation or gender identity. Discrimination based on race, color, religion, sex, disability, marital status and national origin currently is prohibited.

LB627 would apply to employers with 15 or more employees or with state contracts regardless of the number of employees, the state of Nebraska, governmental agencies and political subdivisions.

Debate ceased on the bill per the three-hour policy and LB627 did not return to the agenda this session.

Finally, a bill intended to allow people to safely transport firearms throughout the state was considered by the committee but not advanced.

LB54, introduced by Kearney Sen. John Lowe, would allow a person to transport a legally possessed firearm as long as it is unloaded and stored in a case.

Sen. John Lowe

The bill remains in committee.

NATURAL RESOURCES

Sen. Dan Hughes, chairperson of the Natural Resources Committee

easures restricting the use of eminent domain by renewable energy developers, extending an .Omaha-area natural resources district's bonding authority and merging the state agencies responsible for recommending energy policies and administering environmental regulations were among the bills advanced by the Natural Resources Committee this session.

Renewable energy

As introduced by Gordon Sen. Tom Brewer, LB155

would have prohibited a private entity from using eminent domain to provide access to build transmission lines or other infrastructure related to a privately developed wind energy project.

The bill was amended to define the public use aspect of such exercise of eminent domain as a "rebuttable presumption"—meaning that it may be challenged in court by an

impacted landowner.

Lawmakers passed LB155 on a 44-0 vote.

A bill that would require owners to remove a wind turbine's concrete foundation after decommissioning stalled on first-round debate.

LB700, introduced by Brainard Sen. Bruce Bostelman,

would make any person who owns, operates or manages a wind energy conversion system responsible for decommissioning or reclamation costs necessary for removal of the system.

Sen.BruceBostelman

A pending committee amendment would replace the bill. It would require a wind turbine owner who is a party to

a wind agreement to provide every landowner who also is a party to that agreement with information about the materials and equipment that would be removed from, and that would remain on, the landowner's property when a wind turbine is decommissioned.

The amendment would require every wind agreement executed on or after Jan. 1, 2020, to provide for the removal of a wind turbine's foundation material and equipment below grade upon decommissioning. The requirement would not apply to a wind turbine that is used for repowering within 24 months after it would have been decommissioned.

Any void left from the removal of foundation material and equipment would be restored to the condition of the land prior to the installation of the turbine or to an improved condition.

The Legislature moved to the next item on its agenda before voting on the committee amendment or LB700. Per a practice implemented by Speaker Jim Scheer, the sponsor of a bill that is facing a potential filibuster must demonstrate sufficient support for a cloture motion before the measure will be scheduled for additional debate.

The bill remains on general file.

Natural resources districts

Currently, NRDs encompassing a city of the metropolitan class may issue bonds payable from a flood protection and water quality enhancement levy on the taxable value of

property in the district. The levy may not exceed 1 cent per \$100 of taxable valuation annually without voter approval.

Only the Papio-Missouri River NRD has that bonding authority, which was set to end Dec. 31, 2019. LB177, sponsored by Omaha Sen. Brett Lindstrom and passed on a vote of 35-8, extends

Sen. Brett Lindstrom

the termination date to Dec. 31, 2024.

The committee did not advance a bill that would authorize NRDs to sell land originally acquired for a water augmentation project while retaining the right to use groundwater beneath that land.

Introduced by North Platte Sen. Mike Groene, LB606

would authorize each NRD to develop water augmentation projects for streamflow enhancement and to acquire real property for those projects. The governing NRD would be required to allocate the amount of groundwater that may be withdrawn for such a project.

Sen. Mike Groene

After a project has been developed, its owner could sell the property and continue to pump the groundwater necessary for augmentation without regard to the land area or acres owned.

Other measures

LB302, introduced by Venango Sen. Dan Hughes on behalf of Gov. Pete Ricketts, transfers the statutory powers, employees and assets of the State Energy Office into the state Department of Environmental Quality on July 1, 2019. The new Department of Environment and Energy will be led by the current director of environmental quality.

The bill authorizes the new department to assume responsibility for a permit program related to the discharge

of dredged or fill material consistent with section 404 of the federal Clean Water Act. The permits are required for any project that encounters "waters of the U.S." as defined under the act. Federal law allows the program, which is administered by the U.S. Army Corps of Engineers and the Environmental Protection Agency, to be delegated to states with approved programs.

LB302 passed on a 45-0 vote.

A change to state Department of Natural Resources rulemaking requirements also advanced from committee.

LB319, sponsored by Columbus Sen. Mike Moser and passed on a vote of 43-1, repeals a requirement that the department send county, city and village clerks notice of hearings regarding floodplain management rules and regulations via mail.

Sen. Mike Moser

The bill also makes two changes to department rulemaking requirements. It makes optional the department's adoption and promulgation of rules and regulations regarding the allocation and expenditure of money from the Water Resources Trust Fund, which holds state and federal funds used to pay for the management and protection of the state's groundwater.

The bill also makes optional the department's adoption of rules and regulations governing the matters over which it has jurisdiction-water rights for irrigation, power or other useful purposes.

NEBRASKA RETIREMENT SYSTEMS

Sen. Mark Kolterman, chairperson of the Nebraska Retirement Systems

awmakers made a number of changes to the state's various retirement systems this session, including approving a study of the possible transfer of management duties for the Omaha school retirement plan to the state.

LB31, introduced by Seward Sen. Mark Kolterman, requires the Public Employees Retirement Board—in consultation with the Nebraska Retirement Systems Committee, the Omaha School Employees Retirement System board of trustees, Omaha Public Schools board of education and other stakeholders—to prepare a work plan that examines the possible transfer of management responsibilities for the OSERS plan to PERB.

The work plan must identify the tasks, issues, costs and timelines to transfer management and provide a comparison of the annual OSERS administration costs to the estimated cost for PERB to assume management of the plan.

PERB is authorized to assess OPS for costs related to the

work plan, which must be completed and submitted to the Legislature by June 30, 2020. OSERS is granted authority to bill OPS for any time or expenses incurred in responding to requests from PERB in completion of the work plan.

LB31 passed 47-0 and took effect immediately. Senators also approved an omnibus bill.

Among other provisions, LB34, introduced by Kolterman, eliminates an option that allowed a county or state employee retirement plan member who has been terminated and filed a grievance to request and receive up to \$25,000 from his or her retirement account during the grievance process.

The measure includes provisions from three additional bills:

- LB35, also introduced by Kolterman, which clarifies that, beginning Jan. 1, 2020, a county or state permanent employee must be at least 18 to be eligible for membership in the county or state employee retirement plan;
- LB36, introduced by Kolterman, which modernizes language and codifies the Nebraska Public Employees Retirement Systems practice of awarding service credit by unifying the creditable service definition across all school employee retirement plan tiers. The provisions also grant NPERS additional time to process refund buy back payments for members who were employed on April 17, 2014, and who timely submit their refund buy back applications to NPERS by April 16, 2020; and
- LB565, introduced by Lincoln Sen. Kate Bolz, which clarifies that when a beneficiary is not designated in the state, county or school retirement plans, benefits go to the surviving spouse.

Sen. Kate Bolz

If a member of the retirement system is married at the time of his or her death and there is no designated beneficiary on file, the spouse married to the member on the date of the member's death will be the beneficiary.

If the member is not married on the date of his or her death and there is no surviving designated beneficiary on file, the benefit will be paid to the member's estate.

LB34 passed on a vote of 48-0 and took effect immediately.

Finally, the Legislature approved a bill that makes a number of governance and administrative changes to PERB, NPERS, Nebraska Investment Council and OSERS.

Introduced by Kolterman, LB33:

• increases the per diem for PERB members from

\$50 to \$75;

- exempts legal compliance audit contracts from bidding requirements;
- increases from one to two the number of three-year extensions on actuarial contracts that PERB may issue; and
- changes the presentation date of the NPERS and

Nebraska Investment Council annual reports to the Legislature from March 31 to April 10, beginning in 2020.

The bill also grants OSERS the same exclusion from the state's public records law that applies to all other plans administered by PERB.

LB33 passed 47-0 and took effect immediately.

REVENUE

Sen. Lou Ann Linehan, chairperson of the Revenue Committee

he Revenue Committee advanced bills this session that would require a political subdivision to hold a public hearing before increasing its property tax request, require out-of-state internet retailers to collect state sales tax on purchases made by Nebraska residents and allow a county to impose a sales tax to pay a federal judgment against it.

Several property tax relief measures and a bill that would create a new business tax incentive program failed to pass this session.

Property tax

The committee advanced a bill that requires political subdivisions such as counties and school districts to hold a public hearing before collecting additional property taxes generated by valuation increases.

Under LB103, introduced by Elkhorn Sen. Lou Ann Linehan and passed on a vote of 47-0, if the annual assessment of property within a political subdivision would result in an increase in the total amount of taxes levied using the previous year's tax levy, the levy will decrease so that the political subdivision's property tax request is no more than in the previous year.

If a governing body wishes to increase its property tax request, it may do so only after holding a public hearing called for that purpose and by passing a resolution or ordinance.

The committee also advanced a bill intended to provide tax relief to those whose property has been destroyed by a natural disaster.

LB512, also introduced by Linehan and passed on a vote of 45-0, makes several technical changes to state tax law requested by the state Department of Revenue.

The bill includes provisions of LB482, introduced by Ba-

yard Sen. Steve Erdman, under which the owner of destroyed real property must file a report with the county assessor and county clerk before July 15 of the current assessment year.

Sen. Steve Erdman

The county board of equalization then will adjust the assessed value of the property to its assessed value on the

date it suffered significant damage and the county assessor will correct the current year's assessment roll. Any change in the assessed value of destroyed real property is for the current assessment year only.

LB289, a bill introduced by Linehan that is intended to reduce property taxes by raising the state sales tax rate and directing the additional revenue to Nebraska's public schools, did not advance past the first round of debate.

The proposal—contained in a pending committee amendment that would replace the bill—would be funded by a state sales tax rate increase; a sales tax on bottled water, candy, soft drinks, ice and approximately 20 services; a documentary stamp tax increase; and a cigarette tax increase.

The amendment would direct the new tax revenue to the state's Property Tax Credit Cash Fund. The amendment would use a portion of the fund for school aid, but it also would require the Legislature to grant at least \$115 million in property tax credits each year.

Beginning with school fiscal year 2019-20, each local school system would receive foundation aid. If total aid through the state's school funding formula totaled less than 33.33 percent of a district's total formula need, the district also would receive guaranteed funding aid to make up the difference.

After three hours of debate, the Legislature adjourned before voting on the committee amendment or LB289. Per a practice implemented by Speaker Jim Scheer, the sponsor of a bill that is facing a potential filibuster must demonstrate sufficient support for a cloture motion before the measure will be scheduled for additional debate.

The bill remains on general file.

A scaled-down version of LB289 remains on select file after a failed cloture vote.

As introduced by Sen. Tom Briese of Albion, LB183 would reduce the valuation of farm and ranch land for the purpose of school bond issues. Briese introduced an amendment that would replace the bill.

The amendment contains several provisions also found in LB289, including a sales tax on bottled water, candy, soft drinks and certain services. The

Sen. Tom Briese

proposal would direct the state treasurer to credit sales and use tax revenue generated by the bill's changes to the Property Tax Credit Cash Fund.

After three hours of select file debate, Briese filed a motion to invoke cloture, or cease debate and vote on any pending amendments and the bill. The motion failed 23-7. Thirty-three votes were needed.

The committee advanced a proposal to value farmland for property tax purposes based on the income it can produce, but it stalled on general file.

Under LB483, introduced by Erdman, agricultural and horticultural land would be assessed based on its agricultural productivity value, which in turn would be based on that land's capitalized net earning capacity.

Beginning with tax year 2020, county assessors would determine capitalized net earning capacity using an agricultural land valuation manual created by a new Agricultural Land Valuation Board.

After three hours of debate, the Legislature adjourned before voting on LB483. Per the speaker's three-hour policy, the bill was not scheduled for additional debate this session. It remains on general file.

Business tax incentives

The committee advanced a bill to create a new business tax incentive program to replace the Nebraska Advantage Act, but it stalled on select file after a

failed cloture vote.

LB720, introduced by Sen. Mark Kolterman of Seward, would create the ImagiNE Nebraska Act, under which qualifying businesses would receive a varying combination of incentives based on their level of capital invest-

Sen. Mark Kolterman

ment and the number of employees they hire at a minimum qualifying wage.

The proposal includes provisions of Omaha Sen. Brett Lindstrom's LB605, which would create a tax credit for companies that produce sustainable materials and renewable chemicals using agricultural products.

It also includes provisions of LB527, introduced by Lincoln Sen. Kate Bolz, which would create a program to provide job training grants to employers.

As amended on select file, the bill would require the director of the state Department of Economic Development to submit to the Legislature an

Sen. Brett Lindstrom

Sen. Kate Bolz

estimate of the amount of sales and use tax refunds to be paid and tax credits to be used under the act for each of the next three calendar years.

If the estimate exceeds a "base authority" of \$125 million for any calendar year from 2020 to 2023, the director could not approve any additional applications unless the Legislature's Executive Board approves his or her request for additional authority.

After three hours of select file debate, Kolterman filed a motion to invoke cloture, or cease debate and vote on LB720. The motion failed 30-18. Thirty-three votes were needed.

The bill remains on select file.

Sales and income tax

Lawmakers voted 41-8 to override Gov. Pete Ricketts' veto of a bill that allows a county to impose a sales tax to help pay a federal judgment against it. Thirty votes were needed.

LB472, introduced by Adams Sen. Myron Dorn and

passed on a vote of 43-6, authorizes a county board to adopt a resolution to impose a sales and use tax of 0.5 percent on transactions within the county to pay a qualified judgment, which the bill defines as a judgment rendered against a county by a federal court for a violation of federal law.

Internet retailers without a physical presence in Nebraska are required to collect and remit state sales tax on purchases made by Nebraska residents under a bill advanced by the committee and passed on a vote of 43-0.

LB284, sponsored by Omaha Sen. John McCollister, requires remote sellers exceeding certain sales thresholds in the previous or current calendar year to collect and remit state sales tax. The bill also requires "multivendor marketplace platforms"online marketplaces such as Amazon or Ebay—to collect and remit state sales tax for the smaller sellers they serve if the marketplaces exceed the thresholds.

Sen. John McCollister

that would require out-of-state corporations selling digital products to customers in Nebraska to pay state income tax on those sales.

Elkhorn Sen. Lou Ann Linehan introduced LB288 as a placeholder that could be amended to include state income tax law changes needed to reflect federal tax code changes made in 2017.

The new proposal, contained in a pending committee amendment that would replace the bill, would expand the definition of "doing business in this state" to include the sale, lease or license of services, intangibles or digital products to customers in Nebraska that exceed \$500,000 in the previous or current calendar year.

LB288 remains on general file.

College savings

The committee advanced several bills intended to expand the use of college savings accounts established under the Nebraska educational savings plan trust.

LB610, introduced by Omaha Sen. Brett Lindstrom and passed on a vote of 48-0, creates a cash fund administered by the state treasurer to provide incentive payments to employers that make matching contributions to employees' NEST accounts.

Beginning in 2022, an employer may apply to the state treasurer to receive the incentive payments. An employer whose application is approved will receive an incentive payment equal to 25 percent of the matching contributions made during the preceding year, up to \$2,000 per employee per year.

The bill includes provisions of LB547, introduced by Sen. Anna Wishart of Lincoln, under which the state will match contributions to NEST accounts made on behalf of beneficiaries who meet certain income requirements.

The treasurer may approve up to \$250,000 in incentive payments and \$250,000 in matching scholarships each year.

LB610 also includes provisions of Linehan's LB544, which create a program under which each enrolled child will have a NEST account opened for him or her.

Under the program, the treasurer will send a notification explaining the program to the parent or legal guardian of each Nebraska resident born on or after Jan. 1, 2020. The parent or legal guardian may exclude his or her child from the program. Any child not excluded will be deemed enrolled.

Each year the treasurer will distribute the previous year's investment income from an associated trust fund to the accounts opened during the previous year. The fund will consist of private contributions and any funds transferred or appropriated by the Legislature. The bill prohibits the transfer of state general funds to the trust fund.

A bill that allowed an income tax deduction on employer contributions to NEST accounts and exempted military housing units from property taxation passed 43-2, but was vetoed by the governor after the session ended.

As introduced by Gretna Sen. Andrew La Grone, LB470 would have allowed individuals to claim a state income tax deduction on contributions they make to any NEST account. The bill was amended to remove his proposal because of its implementation cost.

Sen. Andrew La Grone

As amended, LB470 instead included provisions of two other bills: LB444, sponsored by Omaha Sen. Mike McDonnell, and LB545, introduced by Omaha Sen. Justin Wayne.

Under Wayne's measure, an individual's federal adjusted gross income would have been reduced by the amount contributed to the individual's NEST account by his or her employer.

McDonnell's proposal would have exempted military dwelling complexes from property taxation but required the owners of those dwelling complexes to make payments in lieu of taxes to local school districts, the county in which the Sen. Mike McDonnell

complex is located and an infrastructure

maintenance trust fund used for capital repairs, maintenance and improvement of the complex.

In his veto message, Ricketts said a state attorney general's opinion indicated that the bill violated the state constitution by redefining real property as tangible personal property.

Credits and exemptions

LB218, introduced by Lindstrom and passed 48-0, adds electric generation, transmission, distribution and street lighting structures or facilities owned by a political subdivision to the definition of real property, thereby making those items exempt from state sales and use tax.

The bill also excludes from the definition of "gross receipts" the gross income received by political subdivisions for the lease or use of those structures or facilities, making that income exempt from state sales and use tax.

The committee also advanced LB222, introduced by Sen. Joni Albrecht of Thurston and passed on a vote of 46-0, which is intended to simplify administration of the Volunteer Emergency Responders Incentive Act.

Sen. Joni Albrecht

ministrator will provide each volunteer member with notice of the total points he or she has accumulated during the first six months of the current calendar year no later than July 15 of each year.

A bill that clarifies the number of rental agreements farmers and agricultural asset owners may make under the Beginning Farmer

Tax Credit Act also advanced from committee and passed on a vote of 46-0.

Lincoln Sen. Suzanne Geist, sponsor of LB560, introduced the bill to address a Legislative Performance Audit Committee's audit of the program. It was replaced on general file with a committee amendment containing provisions of LB623, introduced by Gothenburg Sen. Matt Williams.

Sen. Suzanne Geist

agreement are eligible to file subsequent applications for different assets. The bill clarifies that tax credits for an asset may be issued for a maximum of three years.

LB560 also defines a flex or variable rent agreement, in which a predetermined base rent is adjusted for actual crop yield or price.

A bill that would create an income tax credit for those who donate money to nonprofits that grant scholarships to students to attend a private elementary or secondary school stalled on general file.

Under LB670, introduced by Linehan, individuals, passthrough entities, estates, trusts and corporations could receive a nonrefundable income tax credit equal to the total amount of their contributions or 50 percent of their income tax liability for the year, whichever is less.

The scholarships could be used to pay tuition and fees at a qualifying non-governmental, privately operated elementary or secondary school in Nebraska.

A pending committee amendment would add requirements for scholarship granting organizations.

After three hours of first-round debate, the Legislature adjourned before voting on the committee amendment or LB670. Per the speaker's three-hour policy, the bill was not scheduled for additional debate this session. It remains on general file.

The committee advanced two bills that were not scheduled for first-round debate this session.

LB153, introduced by Gordon Sen. Tom Brewer on behalf of the governor, would replace the current options to exclude military retirement benefit pay from state income tax and allow an individual to exclude 50 percent of his or her military retirement benefit income to the extent included in federal AGI.

Sen. Tom Brewer

Under LB266, introduced by Lindstrom, self-employed individuals who provide child care and early childhood education would be eligible to claim a staff member credit available under the School Readiness Tax Credit Act. It also would allow tax credits awarded to eligible providers that are formed as pass-through entities to be distributed as income.

Other measures

LB86, introduced by Omaha Sen. Justin Wayne, requires the state Department of Economic Development to prioritize projects located in an area that has been declared extremely blighted when selecting projects for Affordable Housing Trust Fund assistance.

The bill requires the governing body of a city that intends to build workforce housing in an extremely blighted area under the state's Community Development Law-or intends to declare an area as extremely blighted for purposes of funding decisions under the Affordable Housing Trust Fund-first to adopt a resolution that the area is extremely blighted after a public hearing.

The bill includes provisions of Wayne's LB88 that will provide a \$5,000 nonrefundable income tax credit to any individual who purchases a residence located in an extremely blighted area if it is his or her primary residence and was not purchased from a family member.

LB86, which passed on a vote of 47-0, also includes provisions of LB694 and LB737, both introduced by Omaha Sen. Tony Vargas.

Under those provisions, only forprofit entities are required to provide matching funds to receive assistance from the Affordable Housing Trust Fund. Political subdivisions, local housing authorities and nonprofit organizations are not required to provide matching funds.

Sen. Tony Vargas

The bill also requires the department to include more information in its annual status report on the fund.

A bill reinstating a commission that counties receive in return for collecting state motor vehicle tax also advanced from committee this session.

County treasurers may withhold 2.5 percent of the first \$3,000 in state motor vehicle sales and use tax that they remit. Under LB237, introduced by Bellevue Sen. Sue Crawford and passed on a vote of 44-4, counties also may withhold 0.5 percent of all amounts in excess of \$6,000 remitted each month.

Prior to Jan. 1, 2023, the amount withheld will be split between a county's general fund and a county's road fund. After that, 75 percent will be deposited in a county's general fund and 25 percent will be deposited in a county's road fund.

The bill also requires county treasurers in counties with a population of 150,000 or more to remit \$1 of the

collection fee for each of the first 5,000 motor vehicles, semitrailers or trailers registered on or after Jan. 1, 2020, to the state treasurer, who will credit the amount to the Department of Revenue Enforcement Fund.

The committee also advanced a bill meant to ensure that homeowners receive sufficient notice that they may lose their property due to unpaid taxes.

LB463, introduced by Gothenburg Sen. Matt Williams and passed on a vote of 47-0, requires tax sale certificate purchasers to make multiple attempts to notify those who occupy the property, as well as anyone listed on the property's title, before applying for a tax deed to acquire the property.

The bill also specifies the documents that a tax sale certificate purchaser must provide before a county treasurer issues a tax deed. The bill applies to tax sale certificates sold after Jan. 1, 2017.

LB585, introduced by Sen. Curt Friesen of Henderson and passed on a vote of 49-0, creates a cost-share grant program under which owners and operators of retail motor fuel sites may install, replace or convert infrastructure used to store, blend or dispense certain gasoline-ethanol blends.

Sen. Curt Friesen

TRANSPORTATION & TELECOMMUNICATIONS

Sen. Curt Friesen, chairperson of the Transportation and Telecommunications Committee

enators expanded license plate options and addressed call spoofing and a number of infrastructure concerns this year.

Licensing and administration

LB138, sponsored by Bellevue Sen. Carol Blood, authorizes the state Department of Motor Vehicles to create several specialty license plates including designs honoring people who have served in the armed forces in Iran, Afghanistan, the Persian

Global War on Terror.

Sen. Carol Blood

It also creates a "Support Our Troops" plate available to those who have not served, but would like to show support for the armed forces. The application fee for a personalized message Support Our Troops plate will be \$70.

There is a \$5 fee for any of the bill's specialty alphanumeric plates and a \$40 fee for a personalized message plate. The alphanumeric fee and \$30 of the personalized message fee will be dedicated to the Veterans Employment Program Fund. The remaining portion of the personalized message fee will be credited to the DMV cash fund.

The specialty plates will be available Jan. 1, 2021.

The bill includes provisions of LB696, introduced by

Brainard Sen. Bruce Bostelman, which substitute Army National Guard and Air National Guard license plates for the current National Guard Military Honor plates.

Sen. Bruce Bostelman

Provisions of LB697, also introduced by Bostelman, eliminate application and renewal fees for Purple Heart,

ex-POW, Pearl Harbor Survivor and Disabled American Veteran license plates effective Jan. 1, 2021.

Similarly, there will be no application fee for a Gold Star personalized message license plate, however a \$5 renewal fee still will apply. The license plate will be considered permanent as long as the vehicle to which it is attached remains registered by the applicant.

Finally, the bill includes provisions of LB626, sponsored

by Lincoln Sen. Patty Pansing Brooks, which direct the state Department of Veterans Affairs to create a job search website specifically for veterans. The website will be funded through revenue raised by sales of the Support Our Troops license plates.

Sen. Patty Pansing Brooks

The bill passed on a 48-0 vote. LB356, sponsored by Norfolk Sen. Jim Scheer and passed

49-0, redistributes certain specialty license plate fees. It reclassifies Sammy's Superheroes license plates from an organizational to a specialty plate and dedicates 75 percent of the application and renewal fees for personalized message plates and all of the fees for alphanumeric plates to the University of

Sen. Jim Scheer

Nebraska Medical Center for pediatric cancer research. The remaining 25 percent of the personalized message plate fees will be credited to the state DMV cash fund.

Sixty percent of all application and renewal fees for standard message plates, Husker Spirit plates and organizational plates will be credited to the state DMV cash fund. The remaining 40 percent will be credited to the Highway Trust Fund.

LB356 also adds a \$5 fee for a Breast Cancer Awareness alphanumeric plate and establishes a standard \$50 application fee for both the special interest motor vehicle and one-plate plus sticker program.

The state DMV is authorized to discontinue specialty license plates every year that standard license plates are reissued, or every six years, if no more than 250 plates are issued for two consecutive years. New license plates next will be issued in 2023.

Gold Star, Purple Heart, Ex-POW, Pearl Harbor Survivor and Disabled American Veteran license plates are exempt from the discontinuance provision.

Finally, the measure includes provisions from several additional bills, including:

> • LB128, introduced by Venango Sen. Dan Hughes, which autho-

Sen. Dan Hughes

Sen. Lou Ann Linehan

• LB215, introduced by Elkhorn Sen. Lou Ann Linehan, which authorizes a prostate can-

cer awareness license plate; and

• LB691, introduced by Omaha Sen. Machaela Cavanaugh, which authorizes an ornate box turtle specialty license plate.

Sen. Machaela Cavanaugh

Application for and distribution of specialty license plates created under LB356 will begin Jan. 1, 2021.

Lawmakers also approved changes to a record retention law for transporter plates.

LB699, introduced by Bostelman and passed 45-0, decreases the retention period from six to three years for transporter plate applicants to keep records associated with the transport of a motor vehicle.

Telecommunications

The expansion of high-speed wireless service throughout the state was the focus of several bills approved this session by lawmakers.

Under LB184, introduced by Sen. Curt Friesen of Henderson, a political subdivision or authority may require wireless providers to apply for and obtain permits to collocate, or attach, small wireless facilities to wireless structures and utility poles and to install, modify or replace a utility pole associated with a small wireless facility in the public right of way.

The facilities are short-range cellular nodes needed to support fifth-generation wireless technology, or 5G, in high-traffic areas.

The application fee to collocate small wireless facilities on an existing or replacement authority pole may not exceed \$500 for up to five small wireless facilities on the same application and \$100 for each additional small wireless facility on the same application. The rate to collocate a small wireless facility on an authority pole may be no more than \$20 per pole per year.

Senators voted 44-0 to pass LB184.

Friesen also introduced LB268, passed 48-0, which allows a customer who currently is not receiving high-speed broadband services to switch to a neighboring company in a different local exchange to receive such services.

LB693, sponsored by Hastings Sen. Steve Halloran and passed 49-0, targets telemarketing companies that use caller ID to make it appear as though phone calls are from a trusted number—a process known as "spoofing."

Sen. Steve Halloran

or renting a phone number to an out-of-

state entity unless the telephone number is listed publicly and can be verified by a telecommunications provider.

The bill also prohibits any person working in connection with a telecommunications service or internet-enabled voice service from causing a caller ID service to knowingly provide misleading or inaccurate information with the intent to defraud, harm or wrongfully obtain anything of value.

The provisions of LB693 do not apply to authorized law enforcement activity or a court order that authorizes caller ID manipulation. The Nebraska Public Service Commission is authorized to impose administrative penalties on violators, not to exceed \$2,000.

The state attorney general can investigate violations of the bill under the Consumer Protection Act. These violations do not give cause to any private civil action. Local telecommunications companies are exempt from the bill's provisions as long as they are acting in accordance with federal law.

A bill that would require municipalities to seek voter approval before levying additional taxes on wireless services failed to advance from general file.

LB550, as introduced by Omaha Sen. Tony Vargas,

would require a municipality to secure voter approval before imposing any local tax or fee on wireless services.

As introduced, the bill would make additional changes to taxes and fees imposed on wireless services, including eliminating the prepaid wireless surcharge, lowering the enhanced wireless 911 surcharge and

Sen. Tony Vargas

exempting wireless service from a surcharge used to fund the state's telecommunications relay system.

After three hours of debate, the Legislature moved on to the next item on the agenda before voting on LB550 or any of the pending amendments. Per a practice implemented by Speaker Jim Scheer, the sponsor of a bill that is facing a potential filibuster must demonstrate sufficient support for a cloture motion before the measure will be scheduled for additional debate.

The bill remains on general file.

Infrastructure

Lawmakers approved a plan allowing the Nebraska Department of Transportation to complete roads projects more efficiently.

LB82, introduced by Friesen, authorizes NDOT to apply for pre-approval to use practical road design standards that might not meet all current statutory design standards, but that provide significant benefits to users at a reasonable cost.

The bill allows the department, counties or municipalities to apply for programmatic pre-approvals, which apply to an entire category of roads projects that are materially similar.

LB82 also allows each county and municipality to electronically certify completion of one-year and six-year road improvement plans required annually by state law, rather than submitting hard copies of both plans to the Nebraska Board of Public Roads Classifications and Standards.

The bill passed on a 46-0 vote.

LB616, introduced by Lincoln Sen. Mike Hilgers and passed 48-0, exempts highway construction projects with a payment schedule exceeding the date of completion from paying contractor interest.

The board is required to assess the effectiveness of enforcement programs and actions, as well as the board's damage prevention and public awareness programs. A report of its findings will be submitted to the governor and Legislature no later than Dec. 1, 2021, and biennially after that.

LB462 also requires the state attorney general to submit a report annually to the Legislature, state fire marshal and One-Call board of directors detailing the number of complaints filed and prosecuted each year under the One-Call Notification System Act.

The bill passed on a 46-0 vote.

Rules of the road

LB698, sponsored by Brainard Sen. Bruce Bostelman, requires commercial motor vehicle operators to ensure all cargo is secured adequately to prevent it from falling off of the vehicle. The structures, systems, parts and components

used to secure the cargo must be in proper working order with no damaged or weakened components.

The bill passed on a 44-0 vote and took effect immediately. Autonomous vehicle manufacturers could be held liable for accidents under a bill advanced by the committee.

LB142, as originally introduced by Lincoln Sen. Suzanne Geist, would update legal definitions to mirror those adopted by the Society of Automotive Engineers in 2018. It also would establish legal liability for autonomous vehicle accidents.

Also advanced to general file but not debated was LB378, introduced by Blair Sen. Ben Hansen, which would remove a current state law requiring all motorcycle or moped riders to wear a protective helmet. Instead the bill would give riders 21 and older the option not to wear a helmet, but would require that eye protection be used.

Sen. Suzanne Geist

Sen. Ben Hansen

Other measures

Lawmakers approved a bill that provides grant funding to a statewide health and human services referral program.

LB641, introduced by Omaha Sen. Mike McDonnell, transfers \$300,000 annually from the Nebraska Health Care Cash fund for the next two years to the 211 Information and Referral Network. The grant will be used to create a website to educate users about and connect them with available services. The grant also can be used to provide 24/7 service through telephone and online access.

Sen. Mike McDonnell

LB641 also expands the reach of 211 services to include disaster and emergency response. The bill passed on a

LB611, introduced by Plymouth Sen. Tom Brandt, would require a crew of at least two people on each train or light engine used in the movement of freight. The Nebraska Public Service Commission would enforce the two-person requirement, directing any collected fines for distribution to counties for use by public school districts.

Sen. Tom Brandt

LB611 remains in committee.

URBAN AFFAIRS

Sen. Justin Wayne, chairperson of the Urban Affairs Committee

enators authorized creation of a new regional transit authority, addressed blighted properties, updated building codes and approved a constitutional amendment ballot question this session.

Mass transit

Lawmakers overrode a gubernatorial veto of a bill adopting the Regional Metropolitan Transit Authority Act.

Under LB492, introduced by Sen. Justin Wayne of Omaha, an existing transit authority that serves one or more municipalities located within the same metropolitan statistical area or combined statistical area can convert to a RMTA. Omaha has the only transit authority created under existing state law that falls under the bill's provisions.

An ordinance to create, join or leave a RMTA will require a two-thirds vote of the governing authority of each municipality involved. If a RMTA is created, it will be governed by a seven-person elected board and have the power to issue revenue bonds.

LB492 passed 32-11 and subsequently was vetoed by Gov. Pete Ricketts. Senators voted 33-16 to override the veto.

Economic development

A bill designed to rejuvenate economically disadvantaged areas passed this session.

LB87, introduced by Wayne and passed 49-0, requires that the state Department of Economic Development provide a preference for grant applications at least partially located within an opportunity zone as designated by the federal Tax Cuts and Jobs Act.

Projects that are located in an opportunity zone and meet the program requirements for the Affordable Housing Trust Fund, the Business Innovation Act, the Job Training Cash Fund and the Site and Building Development Fund are given priority consideration for funding under the bill.

Lawmakers also passed a bill allowing municipalities to use local tax revenue for early childhood development infrastructure.

LB160, introduced by Grand Island Sen. Dan Quick, expands the Local Option Municipal Economic Development Act, which allows first and second class cities and villages to use local tax dollars for economic development projects through voter-approved grants and loans.

Sen. Dan Quick

The bill, which passed 36-7, adds early childhood development infrastructure to the law's scope.

A bill to authorize land banks stalled on general file. LB424, also introduced by Quick, would allow any municipality in Nebraska to create a land bank—a tax-exempt political subdivision that acquires, manages and develops vacant and tax-delinquent properties—or join an existing land bank. Currently, only municipalities in Douglas and Sarpy counties are eligible to create land banks under state law.

The bill also would specify that a land bank is prohibited from levying property taxes.

Under LB424, only a metropolitan class city could create a stand-alone land bank. Currently, Omaha is the state's only metropolitan class city. Other municipalities wishing to create a land bank would be required to join together using the state's Interlocal Cooperation Act.

After three hours of debate, Quick offered a cloture motion, which would have ended debate and forced a vote on the bill. The motion foiled 31.10

on the bill. The motion failed 31-10. Thirty-three votes were needed.

LB66, introduced by Sen. Matt Hansen of Lincoln, would require that early child-hood development be included in a city's comprehensive development plan by 2022.

The bill failed to advance to select file on a vote of 19-23.

Sen. Matt Hansen

Building codes

Wayne introduced LB96, which makes the state building code applicable in any county, city or village that does not adopt a building code within two years of an update to the state building code. Any building that is on a farm or is used for farm purposes is exempt. Senators approved the bill 39-0.

Quick introduced LB348, which adopts the 2018 version of the International Building Code, the International Residential Code and the International Existing Building Code as published by the International Code Council. Currently, Nebraska is using the 2012 edition of the ICC codes. The bill passed 41-6.

A bill that requires the state's building code to include standards for radon-resistant construction for new residential, commercial, educational and medical structures passed 40-4.

Introduced by Bennington Sen. Wendy DeBoer, LB130

adopts standards recommended by the Radon Resistant New Construction Task Force. The bill also incorporates those standards into the state building code and requires local building codes to adopt minimum standards.

The bill exempts new construction projects designed by a licensed architect or engineer, non-residential buildings if a local building official deems radon-resistant construction unnecessary and new construction projects in counties with an average radon concentration of less than 2.7 picocuries per liter of air.

Other measures

A proposed constitutional amendment will appear on the November 2020 general election ballot under a measure passed this session.

If approved by voters, LR14CA, introduced by Wayne, will authorize the Legislature to extend the maximum repayment period for tax-increment financing indebtedness from 15 to 20 years if more than half of the property in a project area is designated as extremely blighted. The measure was approved 43-2.

LB23 made changes to the Property Assessed Clean Energy Act. The bill, introduced by Sen. Mark Kolterman of Seward, adds new public purpose language to the PACE Act and changes the classification of co-generation and tri-generation systems from a renewable energy resource to an energy efficiency improvement. The bill passed 45-0.

Sen. Mark Kolterman

LB57, introduced by Sen. Adam Morfeld of Lincoln, prevents municipal bans on short-term rentals, defined as 30 or fewer consecutive days. Municipalities still may regulate short-term rental properties for health and safety reasons and the bill does not affect regulation of homeowners' associations. The bill passed on a vote of 46-0.

Sen. Adam Morfeld

Nebraska municipalities must report the impact of occupation taxes under LB445, introduced by Omaha Sen. Mike McDonnell. The bill requires an annual report detailing:

- all occupation taxes collected by the municipality;
- the amount generated annually by each occupation tax;
- whether funds generated are deposited in the municipality's general, cash or other funds;
- whether an occupation tax is dedicated for a specific purpose and the amount dedicated; and
- the scheduled or projected termination date of each occupation tax.

LB445 passed on a vote of 42-0.

LB85, introduced by Wayne, would require that most residential rental properties in metropolitan and primary class cities be registered with the city and inspected at least every three years. The bill advanced from committee but was not scheduled for debate. It remains on general file.

Another Wayne bill, LB136, remains in committee. The bill would incentivize affordable housing projects by providing residential density increases and regulatory concessions, as well as incentives for developments that include a certain percentage of income-restricted rental units for low-income residents.

LEGISLATIVE PROCESS

he lawmaking process in Nebraska can formally consider it. officially begins when a bill is introduced. But the process actually begins much earlier, when senators formulate ideas for new laws. Anyone — concerned citizens, special interest groups, state agencies or the governor — may suggest an idea for a new law. But a senator, a group of senators or a legislative committee must introduce the idea before the Legislature

Legislative committees then consider each bill and may propose amendments to them before advancing them to the full Legislature. The legislative body then has an opportunity to debate a bill at least twice before voting on its final passage.

This is the process a bill must undergo before it becomes a Nebraska statute:

Research

First, a senator and his or her staff research a problem and study possible legislative remedies. Senators may introduce bills to create new laws or to repeal or change existing laws.

Much research is done during the period between sessions called the interim. During this time, committees study a variety of issues that have been outlined in interim study resolutions passed by the Legislature.

Drafting

A senator brings his or her idea for a new law to a bill drafter, who works with the senator to transform the idea into the proper legal form for a bill. Unlike some

states, bills introduced in Nebraska must contain only one subject.

Most bills are introduced during the first 10 days of a regular legislative session, which begins each January. To introduce a bill, a senator files it with the clerk of

A legislative committee hearing

the Legislature. The clerk reads the title of the bill into the record, assigns the bill a number and prints copies of it for public and legislative

Committee Action

Except for a few technical bills, all bills and many resolutions must receive a public hearing before a legislative committee. A nine-member Reference Committee determines which bills will be heard by which committees, based on subject matter jurisdiction.

The Legislative Fiscal Office prepares budget statements known as fiscal notes for each bill

introduced. Fiscal notes generally are prepared before a committee conducts a hearing on a bill.

After the hearing, the committee may either indefinitely postpone the measure, hold it for further discussion or advance it to the full Legislature. The committee may forward recommended amendments to the bill if it is advanced.

General File

General file is the first time the full Legislature can debate and vote on bills. At this stage, senators often consider amendments, which may be proposed both by committees and by individual senators. Many people consider general file to be the most crucial stage of the legislative process, because it is where most com-

promises are worked out through debate and amendment.

Bills on general file may be amended, indefinitely postponed, sent back to committee or advanced to the next stage. As with most legislative business, it takes a majority of senators (25 votes) to adopt any amendment or to move a bill from general file to the next stage.

After a bill is advanced from general file, it undergoes an initial process of enrollment and review, or E&R. During E&R Initial, adopted amendments are reviewed and the entire bill is checked for technical and grammatical accuracy.

Select File

Select file is the second debating and voting

stage. This stage offers another opportunity for amendment, compromise and reflection. Bills on select file may be amended, indefinitely postponed, sent back to committee or advanced to the next stage.

After a bill is advanced from select file, the bill and all of its adopted amendments are sent to enrollment and review final for a process called engrossment. Once all amendments are incorporated into the bill, it is considered to be "correctly engrossed." The bill then is reprinted for final reading.

Final Reading

Final Reading is the third and last stage of legislative consideration. The Nebraska Constitution requires the clerk of the Legislature to read every bill aloud in its entirety before the vote on whether to pass it. However, that requirement may be waived by a three-fifths vote (30 members) of the Legislature.

A bill may not be amended on final reading, but it may be returned to select file for specific amendment. No bill can be passed on final reading until at least five legislative days after the bill is introduced and one legislative day after it is placed on final reading.

The George W. Norris Legislative Chamber

Governor

After the Legislature passes a bill on final reading, it goes to the governor. The governor has five days, excluding Sundays, to decide what to do with a bill.

If the governor signs a bill or declines to act on it, the bill becomes law. If the governor vetoes the bill, it is returned to the Legislature with the governor's objections. A three-fifths vote of the Legislature is re-

quired to override a governor's veto. The governor also may make reductions of specific figures in state budget bills. These reductions are line-item vetoes.

Laws of Nebraska

Most bills passed and approved by the governor become law three calendar months after the Legislature adjourns. However, bills may take effect earlier if they contain an emergency clause or a specified operative date. An emergency clause allows a bill to take effect immediately after the governor signs it. It takes a vote of 33 members of the Legislature to pass a bill with an emergency clause.
